Auditor's Report.

To the Citizens of the Town of Saugus:

Having examined the accounts of several departments of the Town as the by-laws require, and finding them correct with proper vouchers for all payments made I submit the Annual Report to my fellow-citizens and trust it may meet their appreciation and approval. You will see that the deficiency has been largely increased the past year, owing, of course, to the large appropriations for the new school-house and for water extensions. There has certainly been a great advance made in the collection of Taxes the past year which must be very gratifying to the citizens of the Town, although the commitment for the year 1910 was about \$17,000 more than the commitment for the year 1909, yet the uncollected December 31, 1910, was about \$11,000 less than it was December 31, 1909. I desire to call the attention of my fellow-citizens to the growth in size and

expense of the Annual Report and hope that some action may be taken at the coming Town Meeting, whereby the Auditor may be authorized to cut down a good deal of the detail in many of the departments, especially in the Overseers' Department and the account of the Saugus Home.

Respectfully submitted,

GEORGE PARSONS,

Auditor.

SAUGUS, February 12, 1910,

ANNUAL TOWN MEETING

MARCH 7, 1910.

ESSEX SS.

To Charles A. Blakeley, Constable of the Town of Saugus,

GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus qualified to vote in the town affairs to meet at the several voting precincts in the town on Monday, March seventh, A. D. 1910, at 5.45 o'clock A. M. then and there to bring in their ballots to the Wardens for the following town officers :

Town Clerk, three Selectmen, three Overseers of the Poor, Treasurer, Auditor, Constable, Collector of Taxes, Tree Warden, three Fence Viewers for one year, one Assessor, one Sinking Fund Commissioner, three Trustees of the Public Library, one Board of Health, one Water Commissioner, one School Committee, one Cemetery Commissioner, three Finance Committee for three years.

Also your answer " Yes " or " No " to the following question : Shall License be granted for the sale of intoxicating liquors in the town for the ensuing year ?

Also to appear at the Town Hall on Monday evening, March fourteenth, A. D. 1910, at eight o'clock, to hear and act on the following articles, viz :

The polls will open at 5.45 o'clock A. M. and may close at 4.30 P. M. and you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-Laws at least four days before.

Hereof, Fail Not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting.

Given under our hands and Town Seal this Twenty-first day of February, 1910.

J. ARTHUR RADDIN,
GEORGE QUARMBY,
CHARLES N. WORMSTEAD,

Board of Selectmen.

ESSEX SS.

SAUGUS, March 7, 1910.

Pursuant hereunto I have served this Warrant as herein directed.

CHARLES A. BLAKELEY,
Constable.

Annual Town Meeting to act on Articles in Town Warrant was held Monday evening, March 14, 1910, at 8 o'clock P. M.

The meeting was called to order by the Town Clerk, Henry A. Parker. Upon motion by H. H. Atherton, Jr., which was carried, the reading of the articles were dispensed with.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Chose Thomas P. Parsons, who, after being duly qualified by the Town Clerk, took charge of the meeting.

ART. 2. To hear and act on reports of Committees.

Voted, To accept the report of the Finance Committee.

Voted, to receive the report of the Examining Committee and to lay the same on the table.

The Moderator appointed and swore in the following persons as Tellers: Frank E. Parker, Clarence A. Oliver, Herbert M. Forristall and Ernest W. Homan.

Voted, To take up Article 55.

ART. 55. To hear and act on the report of the Examining Committee.

Voted, That the report be taken up by article and recommendations.

ARTICLE 1. We find that in the year 1907, \$120.65 or more was collected on account of the 1901 taxes and that on page 216 of 1907 Report it is shown that \$35.12 was paid the Town Treasurer on account of 1901 taxes.

Voted, That the recommendation, that the Selectmen be instructed to collect the balance be hereby adopted.

ART. 2. On page 142 of the Auditor's Report of 1901, the Assessors report \$82,367.66 as tax commitment. On page 123, the Tax Collector reports the commitment as \$81,576.01, showing a difference of \$791.65 which the tax collector was invited to explain if possible, and which he has neglected to do.

The minority report of the Examining Committee was received and voted to place on the table.

Voted, That a committee of three be appointed by the Moderator and instructed to present to the Director of the Bureau of Statistics the report of the Examining Committee presented here tonight and report back here one week from tonight.

The following committee was appointed: William H. Small, Frank P. Bennett, Jr. and George Quarmby.

Voted, To take up Article 8.

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow during the current municipal year beginning March 7, 1910, in anticipation of the taxes for said municipal year such sums of money as may be necessary to meet the current expenses of the town, giving the notes of the town therefor.

Voted, That the Treasurer be and he hereby is authorized, with the approval of the majority of the Selectmen, to borrow from time to time during the current municipal year, beginning March 7, 1910, in anticipation of the taxes of said municipal year, a sum or sums not exceeding at any one time outstanding

\$120,000 for the purpose of meeting the current expenses of the Town, and to give the notes of the town therefor, payable within one year from their dates. All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year. Said notes shall not be valid unless authenticated by the certificate of the First National Bank of Boston. Yeas 200, Nays 0.

Voted, to adjourn at 10.15 P. M. to March 21, 1910 at 8 o'clock.

ART. 3. To choose all other Town Officers which Towns are, by law, required to choose in the months of March and April annually.

Chose, Carl F. Koch, Pound Keeper; Thomas E. Berrett, Frederic Stocker, Peter J. Flaherty, Field Drivers; J. George Smith, Frank H. Coburn, Herbert O. Pratt, Measurers of Wood and Bark.

ART. 4. To revise the Jury List.

Voted, To accept the Jury List as received and amended.

HENRY A. PARKER,

Town Clerk.

SAUGUS, March 21, 1910.

Adjourned Town Meeting.

Meeting called to order by the Moderator at 8 o'clock P. M.

Records of last meeting were read by the Town Clerk and approved.

Charles E. Putnam was appointed and sworn in as a Teller by the Moderator in place of Herbert M. Forristall, he being absent.

Voted, To accept the report of the committee that were appointed to present to the Director of the Bureau of Statistics the report of the Examining Committee.

Voted, To take up Article 55.

ART. 55. To hear and act on the report of the Examining Committee.

Voted, To reconsider the action on Article 1 of the Examining Committee.

Voted, To take up Articles 1 to 5 inclusive of the report.

Voted, That Article 1 to 5 inclusive be accepted without the recommendation.

Voted, That Articles 1 to 5 inclusive of the report of the Examining Committee be referred to the Selectmen, and if upon examination it is found that any sum of money is due to the town, that they take proper measures to collect the same.

Voted, To adopt Article 6 of the Examining Committee's report.

Voted, To adopt Article 7, with recommendations of the Examining Committee's report.

Voted, To adopt Article 8, with recommendations of the Examining Committee's report.

Voted, To adopt Article 9, with recommendations of the Examining Committee's report.

Voted, To lay Articles 11, 12, 13, 14, 15, on the table, of the Examining Committee's report.

Voted, To accept Article 1, of the supplementary report of the Examining Committee.

Voted, To accept Article 2, of the supplementary report of the Examining Committee.

Voted, To adopt Article 3, of the supplementary report of the Examining Committee.

Voted, To adopt Article 10, of the Examining Committee's report.

Voted, To adopt Article 11, of the Examining Committee's report and that the Tax Collectors be instructed to collect the taxes of 1900 to 1907 inclusive at once.

Voted, Under Article 12, of the Examining Committee's report, that the Auditor be instructed to refuse to approve the accounts of the Tax Collectors unless the correct amount of interest has been collected and paid Treasurer.

Voted, To adopt Article 13, with recommendation of the Examining Committee's report.

Voted, Under Article 14 of the Examining Committee's report, that the individual list of unpaid taxes as published in the Auditor's Annual Report should be properly footed and these footings should agree with the Tax Collector's balance of uncollected taxes less the amount paid Treasurer after the closing of the books, said amount to be properly vouched for by the Treasurer.

Voted, To adopt Article 15, of the Examining Committee's report with the substitution of the word Auditor in place of the words Town Treasurer.

Voted, To accept the report of Examining Committee as a whole and the Committee be discharged.

ART. 5. To see what action the town will take in relation to charging interest or making a discount on taxes assessed during the ensuing year.

Voted, That all taxes are due and payable on October 1, 1910 and interest at the rate of six per cent per annum be charged on all taxes remaining unpaid after November 1, 1910.

ART. 6. To make an appropriation and raise such sums of money as may be necessary to defray Town charges for the ensuing year.

- Voted, That the following amounts are hereby appropriated for Town charges, viz :

Voted, That the sum of five hundred dollars (\$500) together with the receipts and the dog tax be and is hereby appropriated for the Public Library, to be expended under the direction of Library Trustees.

ART. 50. To see if the Town will vote to accept so much of Section 37 of Chapter 19, of the Revised Laws as applies to Police, or see what action the Town will take in the matter.

Voted, That the Town accept so much of Section 37 of Chapter 19 of the Revised Laws as applies to the permanent Police Force.

ART. 51. To see if the Town will authorize the Board of Selectmen to appoint some person to dispose of the tax titles held by the Town and to see if said person shall be paid a commission to be charged to Selectmen's Incidentals, or to appropriate a sum of money to pay for the same, or to see what action the Town will take in the matter, agreeable to the petition of William H. Small and othes.

Voted, That the Board of Selectmen be and they are hereby authorized to appoint some person to assist in collecting and selling the tax titles held by the Town. Said person to be paid a commission on said selling and collecting to be paid from the receipts of the sales.

ART. 52. To see if the Town will appoint George Quarmby, Edward M. Dunmore, Henry A. Parker, L. C. Niles and the Chief of the Fire Department as a committee of five, to examine the requirements of the Fire Department and to report at a future meeting the advisability of a reorganization of both the department and equipment, and present a plan for the consideration of the voters whereby the Town shall receive better service and protection.

Voted, To accept Article 52 as read.

ART. 53. To see if the Town will ratify and confirm the settlements of disputed tax titles made by the Selectmen during the past year, and authorize the Selectmen to make such settlements of disputed tax titles during the coming year as they shall deem advisable and authorize the Treasurer to give release in accordance with such settlement.

Voted, To indefinitely postpone.

ART. 54. To see if the Town will accept and adopt Building Rules and Regulations as prepared by a special committee appointed by the Selectmen, or see what action the Town will take in the matter.

Voted, to accept and adopt the building rules and regulations as prepared by said committee.

ART. 56. To see if the Town will appoint a committee of seven to ascertain the best methods to adopt for a future water supply for the inhabitants of the Town of Saugus, to report at this or a future Town Meeting with their recommendations; said committee to be composed of three citizens, one from each precinct, two members of the Board of Selectmen for 1910 and two of the Water Commissioners for 1910, all to be appointed by the Moderator, or see what action the Town will take in the matter.

Voted, That the Moderator appoint a committee of seven consisting of three citizens of the Town, one from each precinct two members of the Board of Selectmen and two members of the Water Board to carry out the provision of this article. The following persons were appointed by the Moderator, John H. Parker, Henry F. Fiske, Herbert E. Dodge, Robert T. Allen, Ernest L. Noera, Elmer F. Humphrey, Edmund S. Willard.

ART. 57. To see if the Town will amend Section 8, of Article 2, of the By-Laws of the Town so as to read, "No vote shall be reconsidered at the meeting in which it was passed except upon a motion made within one hour after such vote has passed, and upon notice that such motion is to be made, given

within half an hour after such vote has passed, nor then, unless such motion to reconsider is made by a person who has voted with the majority.

Voted, To accept the Article as read.

ART. 58. To hear and act on the report of the Town Treasurer.

Voted, To indefinitely postpone.

ART. 59. To hear and act on the report of the Cemetery Commissioners.

Voted, To indefinitely postpone.

ART. 60. To hear and act on the report of the Tax Collectors.

Voted, To indefinitely postpone.

ART. 61. To hear and act on the report of the Auditor.

Voted, To indefinitely postpone.

ART. 62. To hear and act on the report of the Sinking Fund Commissioners.

Voted, To indefinitely postpone.

ART. 63. To see if the Town will amend Section 10 of Article 4, so as to read "Any portion of an ordinary annual appropriation remaining unexpended at the close of the financial year shall revert to the Town Treasurer unless otherwise provided by Law" or see what action the Town will take in the matter.

Voted, To accept Article 63 as read.

ART. 64. To see if the Town will amend Article 4 by addition of Section 11 to read "Any portion of a special appropriation remaining unexpended at the close of the financial year shall be carried forward to the succeeding year, unless the purpose for which the appropriation is made is complete or rescinded, in

which cases it shall revert to the Town Treasurer, unless otherwise provided by Law" or see what action the Town will take in the matter.

Voted, To adopt Article 64 as read.

ART. 65. To see if the Town will authorize the Board of Assessors to publish a valuation book for the year 1910 and appropriate a sum of money to pay for same, or see what action the Town will take in the matter, agreeable to the petition of William H. Small and others.

Voted, To indefinitely postpone.

HENRY A. PARKER,

Town Clerk.

SPECIAL TOWN MEETING.

JUNE 23, 1910.

Essex, ss.

To Charles A. Blakeley, Constable of the Town of Saugus,

GREETING :

In the Name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town affairs to meet at the Town Hall, on Thursday evening, June twenty-third, A. D. 1910, at eight o'clock, to hear and act on the following articles, viz. :

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-Laws at least four days before.

HEREOF FAIL NOT, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of meeting.

Given under our hands and Town Seal this seventh day of June, A. D. nineteen hundred and ten.

GEORGE QUARMBY,
HENRY F. FISKE,
JOHN H. PARKER,

Board of Selectmen.

Essex, ss.

COMMONWEALTH OF MASSACHUSETTS.

SAUGUS, June 23, 1910.

Pursuant hereunto I have served this Warrant as within directed.

CHARLES A. BLAKELEY,

Constable.

After the reading of the Warrant by the Town Clerk Article 1 was taken up.

ART. 1. To choose a Moderator to preside at said meeting.

Chose Thomas P. Parsons, who after being duly qualified by the Town Clerk, took charge of the meeting.

ART. 2. To hear reports of Committees.

Voted, To accept report of the Finance Committee.

ART. 3. To see if the Town will make an appropriation of twelve hundred dollars (\$1,200) for Selectmen's Incidentals, to cover settlement of Michael J. McCafferty's claim, or to see what action the Town will take in the matter.

Voted, The sum of eleven hundred fifty-five dollars (\$1,155) be and hereby is appropriated for Selectmen's Incidentals to cover settlement of Michael J. McCafferty's claim.

ART. 4. To see if the Town, for the purpose of carrying into effect the vote of March 8th, 1909, providing for the issue of \$3,000 of bonds the proceeds to be used for the extension of the water system; the vote of March 21, 1910, providing for the issue of \$20,000 of bonds, the proceeds to be used for defraying the expense of extending a ten-inch water-pipe from the terminus of the present pipe, opposite the residence of E. Chester Parker on Central street, to a point opposite the residence of Frank H. Coburn on Walnut street and an eight-inch pipe from North Saugus square to a point near the residence of Byron S. Hone on Water street and an eight-inch pipe from Walnut street through Spring street to Broadway; and the vote of March 22, 1910, providing for the issue of \$5,000 of bonds, the proceeds to be used for the extension of the water system; will authorize the Treasurer, with the approval of the Selectmen, to issue twenty-eight bonds for one thousand dollars each, dated July 10, 1910, bearing interest at the rate of four per cent per annum, payable semi-annually, one of said bonds to be payable on July 10 of each year from 1911 to 1938 inclusive, as per petition of George Quarmby and others.

Voted, That the Treasurer, with the approval of the Selectmen, be and he is hereby authorized to issue and negotiate \$28,000 of bonds of the Town for the purpose of carrying into effect the vote of March 8, 1909, providing for the issue of \$3,000 of bonds, the proceeds to be used for the extension of the water system; the vote of March 21, 1910, providing for the issue of \$20,000 of bonds, the proceeds to be used for defraying the expense of extending a ten-inch water-pipe from the terminus of the present pipe, opposite the residence of E. Chester Parker on Central steet, to a point opposite the residence of Frank H. Coburn on Walnut street and an eight-inch pipe from North Saugus square to a point near the residence of Byron S. Hone on Water street, and an eight-inch pipe from Walnut street through Spring street to Broadway; and the vote of March 22, 1910, providing for the issue of \$5,000 of bonds, the proceeds to be used for the extension of the water system; said bonds to be for \$1,000 each, coupon in form, dated July 10, 1910, bear interest at the rate of four per cent per annum, payable semi-annually, and one of said bonds to be payable on July 10th of each year from 1911 to 1938 inclusive. Said bond shall be signed by the Treasurer, countersigned by the Selectmen, shall bear the Town seal, and the coupon shall be authenticated by the facsimile signature of the Treasurer and the bonds shall be certified by the First National Bank of Boston. Yeas 54. Nays 0.

ART. 5. To see whether the Town will make a further appropriation for the constructing and furnishing of a school-house at East Saugus and authorize the issuance of bonds there for, or take any action with reference thereto, agreeable to the petition of George Quarmby and others.

Voted, The further amount of \$9,000 is hereby appropriated for the constructing and furnishing of a school-house at East Saugus. Said money shall be raised by the issuance of \$9,000, four per cent bonds of the Town called "Town of Saugus School-house Loan 1910" of \$1,000 each, dated July 1, 1910, due one a year on July 1st of the years 1911 to 1919. The principal and interest shall be payable at the Beacon Trus

Company, Boston. The bonds shall bear the Town seal, be signed by the Town Treasurer, countersigned by the Selectmen and shall not be obligatory without the authentication certificate of the First National Bank of Boston endorsed thereon. The coupons shall bear the facsimile signature of the Treasurer. All other particulars as to the form, issuance and sale of said bond shall be determined by the Treasurer and Selectmen, but the bonds shall not be sold at less than par and interest. Yeas 55. Nays 4.

ART. 6. To see if the Town will appropriate the sum of one thousand dollars (\$1,000) for Street Sprinkling pursuant to Chapter 186, Section 1 of the Acts of 1895, which was accepted by the Town, March 11, 1901, agreeable to the petition of George Quarmby and others, or to see what action the Town will take in the matter.

Voted, That the sum of one thousand dollars (\$1,000) be and hereby is appropriated for street sprinkling.

ART. 7. To see if the Town will appropriate the sum of two hundred seventy-nine dollars (\$279) for work done on streets in the year 1909, or to see what action the Town will take in the matter, agreeable to the petition of George Quarmby and others.

Voted, That the sum of \$279 be and hereby is appropriated for the purpose of paying the bills contracted by the Highway department of the year 1909.

ART. 8. To see if the Town will appropriate the sum of two thousand dollars (\$2,000) for the purchase of the Round Hill property, or to see what action the Town will take in the matter agreeable to the petition of George Quarmby and others.

Voted, The sum of two thousand dollars (\$2,000) be and hereby is appropriated for the purchase of the Round Hill property.

ART. 9. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow during the current

municipal year, beginning March seventh, 1910, in anticipation of the taxes for said municipal year such sums of money as may be necessary to meet the current expenses of the Town, giving the note or notes of the Town therefor.

Voted, That for the purpose of meeting the current expenses of the Town, the Treasurer be, and he hereby is, authorized, with the approval of a majority of the Selectmen, to borrow from time to time during the current municipal year beginning March 7, 1910, in anticipation of the taxes of said municipal year, a sum or sums not exceeding at any one time outstanding \$10,000, in addition to the \$120,000, authorized by the vote passed by the Town on March 14, 1910, and to give the notes of the Town therefor, payable within one year from their dates. All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year. Said notes shall not be valid, unless authenticated by the certificate of the First National Bank of Boston.

Voted, At 9 P. M. to dissolve the meeting.

A true copy. Attest :

HENRY A. PARKER,
Town Clerk.

STATE ELECTION, NOVEMBER 8, 1910.

ESSEX SS.

To Charles A. Blakeley, Constable of the Town of Saugus,

GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote at elections, to meet at the several voting precincts in the Town, on Tuesday, November 8, A. D., 1910, at fifteen minutes before six (5.45) o'clock, A. M., then and there to bring in their ballots to the Wardens for the following State Officers, all on one ballot :

Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Representative in Congress (Seventh District), Councilor (Sixth District), Senator (Seventh Middlesex District), Two Representatives in the General Court (15th Essex District), County Commissioner, Essex, Associate Commissioners, Essex, District Attorney, Eastern District, Sheriff, Essex County.

The polls will open at fifteen minutes before six (5.45) o'clock A. M., and may close at four (4) o'clock P. M., and you are hereby directed to serve this Warrant by posting attested copies at the usual places, seven days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands and Town Seal this seventeenth day of October, A. D. nineteen hundred and ten.

GEORGE QUARMBY,
HENRY F. FISKE,
JOHN H. PARKER,

Selectmen of Saugus.

ESSEX, SS.

Report of the Finance Committee.

To the Citizens of the Town of Saugus:

The Finance Committee submit the following report on all matters in the town warrants calling for the appropriating of money; also our estimates for appropriations for the several departments for the year nineteen hundred and eleven. We have attended to our duties by the holding of frequent meetings, and hearings have been given to all parties in interest, and our recommendations have been submitted after careful and deliberate judgment. Differences of opinion may exist in regard to particular matters but the sole purpose of your Finance Committee is to produce the best results for the whole town, and to make all conditions conducive to a high standing of government. While your Committee recognize the importance and great necessity of many of the things asked for, calling for the appropriation of money, they are obliged to cut in some places in order that the total amount called for may not increase the present high tax rate. Yet despite our efforts, the rate keeps well up in the advance guard and it should be remembered that the Finance Committee can only recommend. To the departments which have the expenditure of the money, belongs the great responsibility of seeing that whatever money is appropriated, is judiciously and economically expended, and no Board should expend in excess except whereby the safety or health of the citizens or their property are involved, and it is, therefore, incumbent upon the various departments of the town in making up their estimates for the year to be as moderate as a fair service of the public necessity will permit. Moderation in estimate and appropriation must also be followed by good judgment and efficiency in expenditures, if we are to come out on the right side of the ledger. The situation which confronts us is serious,

but we believe it can be solved with some degree of satisfaction when the moral sense of the community is awakened, to work earnestly, energetically and solely in the public interest, and upon the citizens rests the final responsibility. The growth of the town depends largely on the keeping of our tax rate within reasonable limits, and this point we should bear well in mind in the making of our appropriations and the administration of our affairs. Let us use our best efforts for all that tends to a better Saugus and all that makes our Town great and prosperous. To be sure, we have much to do and are not overburdened with resources with which to do it, but this affords an added reason why we should bend every energy in demonstrating that prudence and progress can go hand in hand, and that economy and accomplishment in municipal development are not inconsistent. We feel we have been honored by your confidence and appreciation and we desire to express to the citizens our gratification at the cordial support. The past year the Committee suffered the loss of one member by death, A. Clarke Newhall. The Town, as also the Committee, lost a valued member, a true, honest, conscientious man and who had served the Town faithfully. Appropriate resolutions were recorded. Herbert G. Hatch was elected to fill the vacancy. On account of removal from town, M. V. Putnam and H. A. B. Peckham resigned from the Committee. The vacancies were filled by the Committee, by the election of Walter Sprague and F. N. Kinney. H. H. Atherton, Jr. resigned from business reasons and his resignation caused the election by the Committee of W. L. C. Niles. We very respectfully invite your consideration of our estimates for the municipal year which follows :

Schools.

Saugus is keenly appreciative of the value and importance of generous financial provision for the education of its young people. For this purpose it has been willing to spend money freely but always with insistence that it be prudently and wisely expended and this, we believe, is being done. The erection of modern school-houses and the maintenance of our schools at a high

standard has caused a large expenditure of money and will continue to with the increased demands and growth of the town. After careful consideration by the Committee we are of the opinion that the sum of \$45,000 should be recommended for schools.

Highway Department.

In the last few years a very important new element has had to be considered in the repairs of our highways. We refer to the great increase in the number of automobiles which certainly make it much harder to keep the roads in good condition and therefore the annual amount to be expended will naturally have to increase with due regard to the needs of the Town and the means at our disposal. It should be remembered that the Street Railroad and Excise Tax now amounting to something like \$6,500 is expended on our highways and is added to our highway appropriation. We believe that the appropriation made last year for the laying of dust was a move in the right direction and on the whole was satisfactory. It is not wholly a question of laying dust but also the preservation, for the highway is an important consideration, and we know that other materials besides water are being used exclusively in all the cities and towns about us, and we would recommend a sufficient sum be appropriated for street sprinkling exclusive of the sum estimated for highways. We make the following estimate for Highways and Bridges \$5,000 together with the Excise and Street Railway Tax of \$6,500, making a total sum of \$11,500 exclusive of street sprinkling.

Selectmen's Incidentals.

This department in our opinion should be "Contingent Fund," as the Selectmen have very little to do with the expenditures. The amount required is difficult to estimate. We believe, however, that everything of a fixed nature should be taken from this account and a special appropriation made. We should estimate for this account the sum of \$7,000.

Assessors Department.

After careful consideration of the expenses of this Department we feel justified in our opinion that the sum of \$1,600 should be recommended and feel that the Town should be congratulated on the good management of the Department.

Water Department.

The extension of the water system is a serious question and demands careful consideration, not only by the Committee but also by the citizens of the Town. Your Committee do not feel justified in suggesting to the Town more than \$5,000 loan, keeping in mind the fact that we have \$4,000 unexpended balance from the North Saugus loan that can only be used for the extension of pipes. For maintainance of the system we would estimate \$1,000.

Board of Health.

The health of the community must be guarded zealously and Saugus has taken a front position in this respect. We note the Plumbing Inspector received the sum of \$761 last year. We are of the opinion that a salary should apply to this position and shall hope to see this so arranged this year. The amount we estimate for the Board of Health is \$1,800 not to include the salary of the Inspector of Plumbing and should not include the salary for Secretary, as it is the intention of the Town, that Salaries are voted at the annual meeting.

Fire Department.

Efficiency in the Fire Department to a great extent depends on apparatus and we should keep abreast of the times in this regard as far as our financial condition would seem to warrant. Last year we recommended that a committee be appointed and the Town so voted and until such time as the committee make their report it would seem unwise to make an estimate of the amount needed by the Department at this time, as no doubt a change will be made and the expenditures of previous years give no data upon which to base such estimate.

Police Department.

We have kept this Department down to the minimum for some years and recognize because of this fact it has suffered to some extent in efficiency, but with the large growth of the Town we must recognize that there is a natural increase in the work in this department, necessitating an increase in expenditures. We would estimate for this department the sum of \$5,600.

Interest, Water and School-house Bonds.

The sum of \$14,000 must be paid for interest this year and you should consider these large amounts as they are increasing at a rapid rate. Water and School-house bonds we must meet this year to the amount of \$13,000.

Overseers of the Poor.

It seems necessary that the sum of \$3,200 be estimated for the Overseers of the Poor for the expense of this department.

Street Lighting.

We think the policy of the Selectmen in taking out many arc lights and installing incandescents is certainly a move in the right direction and must result in a better lighting of our town, and finally, in a saving of money under the present system. We estimate the sum of \$7,250 for street lighting.

Riverside Cemetery.

For the care and maintenance of Riverside Cemetery, we should estimate the sum of \$2,500.

Sidewalks.

Sidewalk improvements must and should be continued as we believe there is no better asset than good sidewalks, and a policy should be adopted whereby continuous sidewalks could be constructed along our main highways to accommodate our entire people. We estimate for concrete sidewalks the sum of \$350.

Insurance.

Insurance this year will amount to \$1,275 and must be appropriated.

Repairs, Town Buildings and Grounds.

For the best interests of the Town we would estimate that the sum of \$2,000 will be required this year.

Repairs, Interior School Buildings.

We estimate \$1,000 for this expense.

Tree Warden.

Two hundred dollars would seem to be the amount required for the Tree warden.

State and Military Aid.

The amount required this year will be \$3,500.

Public Library.

Because of the lack of information owing to the failure of the Chairman of the Board of Trustees to appear before your Committee as notified, according to the by-laws of the Town, we are unable to base our estimate on present conditions. Last year the Town voted \$500 and the dog tax \$646.06 and receipts.

Soldiers' Relief.

The amount required this year will be \$950.

Salaries.

Owing to a probable change in the Fire Department which would necessitate a change in salaries, we are unable at this time to give an estimate only on salaries exclusive of that Department, which is \$2,025, to which must be added whatever amount the Town shall vote for salaries for the Fire Department.

State and County Tax.

This amount will be as large and probably larger than last year and we estimate that \$17,500 will be required.

Sinking Fund.

This fund requires the sum of \$500.

Lock-Up.

The policy adopted by the Town last year of making a separate appropriation for this department seems to be satisfactory. We estimate the sum of \$325 for the expense of the Lock-up.

Gypsy and Browntail Moths.

The state requires that we should appropriate this year the sum of \$2,204.20.

Hydrant Service.

The sum of \$504 is required for Hydrant service.

For the Committee,

E. B. OLIVER, *Chairman*,

F. C. CHEEVER, *Secretary*.

FINANCE COMMITTEE ESTIMATES FOR

Municipal Appropriations for Year 1911

Schools	\$45,000 00
Selectmen's Incidentals	7,000 00
Overseers of the Poor	3,200 00
Water Loan (principal)	5,000 00
Roby School-house Loan (principal)	3,000 00
1905 School-houses Loan (principal)	2,000 00

NOTE.—The appropriation of \$1,200, under Article 37, for the grading of a part of Central and Main streets, under the provision known as the “Small Town Act” on condition that the State pays a like amount to the Town during the year 1910 for said grading, was not drawn upon and reverts to the treasury.

Report of Selectmen.

To the Citizens of Saugus:

We herewith present the annual Selectmen's Report for your consideration. It is with some degree of pleasure and satisfaction that we can report to you the progress and achievements of the past year, and while we have had quite a number of knotty problems we think that they have been settled for the best interest of the community. We would at this time call your attention to the result that has been attained by our Senator, Hon. Frank P. Bennett, Jr., in getting the appropriation from State Highway Commissioners for the work of repairing and grading the Newburyport Turnpike from the Lynnfield to the Melrose line. Our desire was that the commissioners would have taken over this piece of road as part of the State Highway. We still hope that in the near future that they will see it in a favorable light and do so.

The North Saugus Water Extension.

At the March Meeting \$20,000 was appropriated to extend the water pipe to North Saugus, the same to be let out to the lowest bidder. We were compelled to comply with certain technical requirements that were called for before our Treasurer could raise the \$20,000. As soon as the requirements being met, we proceeded with the preliminary work on this extension. Bids were called for and submitted, the contract was awarded to Jose Morrell of North Attleboro, Mass., he being the lowest bidder. The contract called for approximately 10,000 feet of 10-inch standard water pipe at \$1.22 per foot; 2,500 feet of 8-inch water pipe at 96 cents per foot; 200 feet of 6-inch water pipe at 77 cents per foot; two standard 10-inch gate valves at

\$48.60 each, two 8-inch standard gate valves at \$29.50 each, five to ten 6-inch standard gate valves at \$8 each, five to ten hydrants at \$31.50 each, nine to fourteen iron gate boxes and covers at \$3.25 each. The Contractor started work as soon as possible after being notified, and the work was pushed through and completed in fairly good time, the approximate cost of the whole job being \$16,325. A 10-inch-main is laid as far as Frank Coburn's, an 8-inch pipe is laid down Spring street to the junction of Broadway. We would recommend that a 6-inch pipe be laid from there beginning at this point, approximately 800 feet, so as to serve the houses on Broadway, and part of the money that is left over be used for this extension.

Highways and Bridges.

The work of this department during the past year has been in the nature of putting many of our side streets in repair, which we think has been well done, and these places will require little attention for a number of years to come. Many places we have repaired retaining walls and put up new fences along the highways.

Street Lighting.

In this department we have made quite a radical change in taking out 34 arc lights and replacing them with 127 incandescent lights. The change has been of great benefit to the community, as many almost inaccessible and dark spots have been made light. Our limited time prevents us from making even more changes, but we do recommend many more arcs be removed and incandescents be substituted.

Round Hill.

At the last March meeting an article was in the warrant calling for an appropriation to buy up the so-called Round Hill property. It was voted at this meeting to refer the whole matter to the Selectmen to investigate and buy if advisable. After making a thorough investigation of the property and receiving advice from Professor La Hee of Harvard University and also from Mr.

Phillsbury of the State Highway Commissioners we took the matter up with Mr. Earle, the owner of the property and purchased the hill and the lots on Round Hill street and Woodbury avenue. The purchasing price being \$2,000. In our opinion this is money well invested for the benefit of the Town.

1907 Assessors.

The claim of Mr. M. J. McCafferty against the Assessors' Department 1907 was again referred to the Board of Selectmen for adjustment. This matter was finally reached in due time and a satisfactory agreement was arrived at between your Board and the adjusters of the M. J. McCafferty estate and was settled for the sum of \$1,153.43.

The Tax Collectors.

Pursuant to your vote of last March regarding the collection of back taxes your Board took up this matter with Lewis J. Austin, tax collector for the years 1901, 1902, 1903 and 1904, Mr. Austin settling all claims against him, less abatements made by the Board of Assessors, and paying interest on the same at the rate of $3\frac{1}{2}$ per cent. per annum.

Clarence Coates, tax collector for the years 1905, 1906, 1907, 1908, made a settlement of his 1905 commitment with $3\frac{1}{2}$ per cent. per annum.

Henry A. Parker, tax collector for 1909 and 1910, is making very strenuous efforts to collect the taxes of these years and is meeting with very good success. The 1909 tax commitment was \$113,918.79, of this amount \$105,448.88 has been collected, \$1,385.12 abated, the amount uncollected to date is \$5,253.20. The Treasurer reports the amount of cash on hand December 31, 1911, to be \$65,323.78.

Public Buildings and Grounds.

In this department \$1,200 the amount of appropriation was spent on work that was absolutely necessary in order to keep the buildings in even water tight condition and present a respectable

appearance, and much more could have been spent advantageously on some of the buildings that are in very bad condition, such as the roof of the Town Hall where a large number of the slates have fallen off, and many more require fastening on. The gutters are in such shape that the water runs over the top making a very unclean appearance down the sides of the building. The roof of the High School building needs much attention, as it is in a leaky condition.

Street Sprinkling.

At the special Town Meeting in June \$1,000 was appropriated for street sprinkling. Nothing definite was known about this work and it was taken up largely as an experiment. After giving it much thought we took this matter up with the Lynn Board of Public Works, who gave us much valuable information, and your Board arranged with them to oil our streets in preference to watering them as we found this was being done by nearly all the cities and towns in the state. The Board of Public Works agreed to oil our streets at practically the actual cost to them of this work, and we think that the work was done in a very satisfactory manner as in the fall our streets presented a very neat appearance. This work was done at approximately \$700.

Fire Department.

This department is not in as good condition as the citizens desire. The apparatus, what there is of it, is old and out of date, and practically little or no new has been added to this department for years. During the past year your board has bought 1,500 feet of hose for this department, as in the opinion of the Engineers and ourselves it was extremely necessary to add this to the apparatus. A committee was appointed at our last Annual Meeting, and we have reason to expect that a report will be rendered at our Annual Town Meeting.

Police Department.

This department is still rendering a good account for itself, and under Chief Thompson's wise and conservative administra-

tion the citizens have every reason to feel gratified at the record of this department during the past year, but it has been extremely difficult to handle this department to the satisfaction of our citizens with the small appropriation at the Chief's command, and he could render a better account if a little more was added to this appropriation.

Building Inspector.

It is very evident that the building inspector has been appointed none too soon, as there has been a considerable number of new buildings erected in Town during the past year and the Inspector appointed has been kept busy issuing permits and making personal inspections of the buildings being erected. The salary appropriated last year was not sufficiently large for the amount of work involved in this department and we would recommend that the sum of three hundred dollars (\$300) be appropriated for this office.

Main Street.

The rails of the Boston & Northern railroad on Main street from the monument to Broadway are in a wretched condition and the continuous pounding and racket that the cars make going over the loose rails, to say the least must be nerve racking and annoying to the residents living on this street, but we have the assurance of Mr. F. C. Wilkinson that new rails will be laid early in the spring from the monument to Broadway.

GEORGE QUARMBY,
HENRY F. FISKE,
JOHN H. PARKER.

Report of the Superintendent of Streets.

SAUGUS, January 21, 1911.

To the Board of Selectmen :

GENTLEMEN,— In submitting my annual report for the year ending December 31, 1910, I wish to state that while we have had a very busy year it has been a satisfactory one to all concerned, as the large amount of work by this department speaks for itself in the number of streets that have been resurfaced.

All of the road work done this season has been distributed through the town so well that it leaves little chance for criticism.

I would suggest that Main street be repaired this coming season, also Water street near the Wakefield line be looked after.

Broadway or the Newburyport turnpike has been put in good condition by the State the past season making a good road for driving, but it will need attention in the spring when the frost is coming out as it is springy in some places.

I recommend purchasing all the cinders for the sidewalks, as they make a good dry walk.

I wish to thank the Board of Selectmen for their impartial coöperation with this Department.

Respectfully submitted,

ANTHONY HATCH,

Superintendent of Streets.

Report of Chief of Police.

To the Honorable Board of Selectmen:

GENTLEMEN,—In accordance with the requirements of the Town ordinance, I have the honor to submit my fifteenth annual report of the Police Department for the year ending December 31, 1910.

Chief of Police.

CHARLES O. THOMPSON.

Regular Officers.

Captain Roland L. Mansfield, Frank W. Joy, James P. Sullivan.

Special Officers.

Peter A. Flaherty, Edward P. Burnham, Thomas E. Berrett, William M. Penney, Timothy J. Bannon, Joseph P. Devine, Morin A. Hazel, Frank M. Symonds, William F. Farker, Justin E. Mansfield, James W. Rea, George W. Parker, Christopher C. Merrithew, Charles E. Davis, Thomas E. Sutherst, Charles O. Popp, Nathan H. Williams, Charles F. Clark, James F. Pratt, Howard P. McAdoo, Samuel C. Maddox, Daniel D. Smith, John P. Chesley, Charles W. Sellick, Charles W. Willey, Charles L. Patten, Philip Ward, Emory S. Fiske, Arthur G. Clark.

Arrests.

The total number of arrests for the year 1910 was 243, of which 232 were males and 11 females.

Court Receipts.

The total amount of fines for the year of 1910 was \$689, of which the Town of Saugus received \$559. Commonwealth, \$85. County of Essex, \$17.50. M. S. P. C. A., \$20. Complaints, \$7.50.

The Following are the Offences.

Assault, 15; assault and battery, 1, arrested for out of Town officers, 4; bastardy, 1; breaking glass in fire alarm box, 1; breaking and entering, 4; capias, 2; cruelty to horse, 1; drunks, 53; disorderly conduct, 2; disorderly conduct on a street car, 7; disturbing peace, 4; disturbing school, 5; habitual truant, 2; illegal sale of liquor, 1; keeping liquor with intent to sell, 3; keeping child from school, 17; labor on the Lord's day, 1; larceny, 12; larceny from person, 1; leading an idle and disorderly life, 1; lewd and lascivious, 2; malicious mischief, 10; neglect of child, 4; non-support, 5; obstructing the sidewalk, 1; profanity, 10; playing ball in street, 3; present at a game on the Lord's day, 28; peddling without a license, 3; pasturing a horse on the highway, 2; rape, 1; stubborn child, 9; selling registered milk bottles, 5; setting grass fire, 1; truancy 5; throwing dangerous missile, 1; trespass, 7; track walking, 3; unlicensed dog, 1; violation of game law, 1; violation of clam law, 2; violation of Town by-laws, 4; violation of State highway law, 1.

Disposed of as Follows:

Appealed cases, 5; committed to Salem jail, 8; State Board of Charity, 2; State Farm, 1; Feeble Minded school, 1; Concord Reformatory, 1; Taunton, 1; Shirley, 1; Lawrence Training school, 3; defaulted, 9; discharged, 22; fined, 105; filed, 79; held for Grand Jury, 2; held for Superior Court, 5; probated, 5.

Miscellaneous Work.

Complaints received and investigated 1,270, committed to Danvers asylum 8, dead bodies removed 3, disturbances suppressed 52, doors found opened and secured 91, dogs killed 81,

lights furnished for dangerous places 49, lights found burning 82, lost children restored 16, runaway horses stopped 12, stray teams put up 9, windows found open 28, responded to fire alarms 42, calls for patrol wagon 176.

Recommendation.

I would recommend that the sum of \$6,400 be appropriated for police service for the year of 1911. I would also recommend the appointment of two more regular patrolmen—one for Saugus Centre and the other for Cliftondale, as I am receiving many complaints about the beats not being properly covered, and it is impossible for one man to patrol each of these two sections of the Town. With this addition Pleasant Hills district could also be covered.

Conclusion.

In submitting my annual report I wish to thank the Honorable Board of Selectmen for the support given me, also Judge William E. Ludden and all others who have assisted me in the performance of my duties. I desire also to tender to the officers both regular and special my deep appreciation for their loyal coöperation.

Respectfully submitted,

CHARLES O. THOMPSON,
Chief of Police.

REPORT OF Engineers of Fire Department.

To the Honorable Board of Selectmen:

GENTLEMEN,—Your Board of Engineers respectfully submit to you their annual report of the year ending December 31, 1910. The Department consists of chief engineer and two assistant engineers, forty regular men, one call man, superintendent of fire alarm, three hose wagons, one hook and ladder truck.

Apparatus.

The hook and ladder truck is in very bad condition. The ladders are in no condition to use. We recommend the purchase of a new combination hook and ladder truck in place of the one we are now using. The rest of our apparatus is in very good condition.

Fire Alarm System.

The fire alarm system is in good working order considering the condition of our wires which have been in service for the past eighteen years. The system will have to be overhauled this year and a large portion of it rewired.

Fire Alarms.

There has been during the year forty-two bell alarms, three still alarms and five second alarms.

Respectfully submitted,

THOMAS E. BERRETT, *Chief.*
CHARLES L. PUTNEY, *First Assistant.*
PETER A. FLAHERTY, *Second Assistant.*

Jan. 11. Box 27, 5 P. M. Camp located on Overlea avenue owned by George Pendleton and Harry Reynolds. Damage to building and contents \$650. Total insurance paid \$326.

Feb. 2. Box 12, 7.55 P. M. Jasper street. Shed owned by Henry A. and John A. Peck. Damage to building \$5. No insurance paid.

Feb. 7. Box 21, 2.05 P. M. Lincoln avenue. Store owned by C. Vassalo. Damage to building and contents \$88. Total insurance paid \$73.22.

Feb. 15. Box 23, 11.50 P. M. False alarm.

Mar. 25. Box 23, 2.15 P. M. Two alarms. Lincoln avenue. Call for fire in Revere.

Mar. 25. Box 28, 2.45 P. M. Franklin park. Grass fire.

Mar. 26. Box 12, 6.40 P. M. Central street. Building owned by Kent heirs. Damage to building and contents \$3,300. Total insurance paid \$2,410.29.

Mar. 29. Box 124, 2.20 P. M. - Broadway. Grass fire.

Mar. 30. Box 127, 12.15 P. M. Jackson street. Grass fire.

Apr. 1. Box 34, 1 15 P. M. Riverside court. Grass fire.

Apr. 29. Box 24, 1.30 P. M. Baker street. Grass fire.

May 24. Box 13, 8.50 P. M. Jasper street. Building owned by Henry A. and John A. Peck. No damage.

June 4. Box 24, 3.20 A. M. Two alarms. Building located on Lincoln avenue. Odd Fellows Building. Damage to building and contents \$7,436. Total insurance paid \$6,955.00.

July 3. 11.50 P. M. Still alarm. Freight car at East Saugus. Damage \$50.

HOOK AND LADDER NO. 1.—1 hook and ladder truck, 1 set double harness, 1 45-foot extension ladder, 1 30-foot roof ladder, 1 20-foot roof ladder, 1 30-foot body ladder, 1 25-foot body ladder, 1 18-foot extension, 2 sledge hammers, 1 pike head axe, 3 crotch poles, 1 pull down hook, chain and pole, 3 lanterns, 2 ladder dogs, 1 life gun and equipment, 1 rake, 2 extinguishers, 2 hose menders, 1 pinch bar, 1 crowbar, 2 Johnson pumps, 8 canvas coats, 2 horse blankets, 1 whip, 100 feet of rope.

Tree Warden's Report.

To the Citizens of the Town of Saugus:

In the past year I have spent the greater part of my appropriation trimming trees in all parts of the Town, and have taken down a few large elm trees which have died in the past year. Our elm trees in all parts of the Town were very badly infested with the elm leaf beetle, and if not taken care of this coming year a great number will die from this pest.

Respectfully yours,

T. E. BERRETT,

Tree Warden.

Report of the Water Commissioners.

The Board of Water Commissioners respectfully submit the following annual report for the year ending December 31, 1910.

The Board being the same members as the year before and consisting of Messrs. H. E. Dodge, Charles Florence and Robert T. Allen, met March 25 and reelected the officers of the previous year, Mr. Dodge as chairman, and M. Allen as secretary.

The Board then voted to commence operations at once, and work was commenced Monday, March 28, 1910.

Having a quantity of material on hand carried over from last year we were permitted to push the work along without the usual delay of waiting for pipe, etc., as has been the experience in former years. Owing to the rapid growth of the Town and the large number of new houses being built this year we have had increasing demands for the extension of the water and a larger number of applications than usual, which, with the applications carried over gave us more urgent demands than we had funds to take care of. After our appropriation was exhausted and we had then overdrawn to complete a job. The balance of our 4-inch pipe was laid on Beachview avenue, and the labor was paid by a Mr. Mazzoni who received the water therefrom. And still there came an urgent demand on Sunnyside avenue, where there were several new houses built and no water, in which case the owner of the property advanced the money to pay for the pipe and labor.

Our overrun of \$96.91 was taken care of by the \$100.00 appropriated at the Special Town Meeting in December.

The total feet of pipe laid is 1,362 feet, of 6-inch pipe and 4,528 feet of 4-inch (not including the 240 feet laid on Sunny-side avenue), making a total of 6,896 feet, laid at an average cost of about 80 cents per foot including 220 cubic yards of ledge blasted and all tapping mains and connections with old cement mains.

The 50 per cent rebate received from the City of Lynn for 1910 amounts to \$7,670.40.

In accordance with the by-laws of the Town and after carefully considering the situation and conditions with the growing needs for water your commissioners appeared before the finance committee and recommended a loan of \$10,000 for extension and \$1,000 for maintenance of the system for the year 1911.

Respectfully submitted,

HERBERT E. DODGE,
ROBERT T. ALLEN,
CHARLES FLORENCE.

Water Commissioners.

January 28, 1911.

Report of Board of Health.

The Board of Health respectfully submits its annual report for the year 1910.

The Board was organized as follows: George W. Gale, M. D., Chairman; William F. Belcher, Secretary; Tom D. Emmett, Health Officer.

Regular meetings of the Board are held at the Town Hall on the first Monday of each month at 8 o'clock P. M.

Complaints of various kinds were made to the Board, and all were investigated without delay, and where any nuisance was found to exist it was promptly ordered abated, and the order was complied with in every case.

Complaints made to this Board must be made in writing, and signed by the person or persons making it. No anonymous complaints will be noticed.

We would still call the attention of all owners of real estate to the necessity of having their vaults and cesspools kept in a sanitary condition and cleaned out once a year at least as required by law. Many vaults and cesspools are used until they run out upon the ground, thereby creating a nuisance for themselves and their neighbors. We would also urge the necessity of using an iron cover to all cesspools, the same being once done is done forever, while a wooden top has to be renewed every six or seven years, besides the liability of a horse or wagon breaking through it. We would also urge upon the citizens a more thorough collection of ashes and swill, it being no more work to them to put it in a proper receptacle and have it taken away than to throw it out in the yard to rot and breed mosquitoes and flies, and to say nothing of the improved condition of their premises. We find that once a household has the same removed they do not wish to go back to the old way.

The whole number of contagious diseases reported to the Board are as follows:

Diseases.	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
Scarlet Fever	6	7	2	7	6	0	0	1	2	1	0	0	32
Diphtheria	1	4	1	2	4	2	0	0	0	3	1	3	21
Tuberculosis	2	0	0	0	1	0	1	2	0	0	1	1	8
Measles	1	0	0	16	88	48	3	3	0	0	0	1	160
Typhoid Fever	0	0	0	2	0	0	0	1	3	7	2	0	15
Chicken Pox	6	0	0	0	0	1	1	0	1	0	1	0	10
Whooping Cough	0	0	0	0	0	0	0	0	0	0	13	6	24
Total	16	11	3	27	99	51	5	7	6	11	18	11	269

This is the largest number of contagious diseases ever reported.

Revised Laws, Chapter 75, Section 49.

A householder who knows that a person in his family or house is sick of small-pox, diphtheria, scarlet fever, or any other infectious or contagious disease, shall forthwith give notice thereof to the Board of Health of the city or town in which he dwells.

As authorized and directed by the Acts of 1907, the State Board of Health has declared the following diseases to be dangerous to the public health and hence notifiable under the provisions of the above section :

Actinomycosis, Asiatic Cholera, Cerebro-Spinal Meningitis, Diphtheria, Glanders, Leprosy, Malignant pustule, Measles, Rubella, Scarlet Fever, Smallpox, Tetanus, Trichinosis, Tuberculosis, Typhoid Fever, Typhus Fever, Varicella (Chicken Pox), Whooping Cough, Yellow Fever.

All of these diseases must be reported to the State Board of Health and the State Inspector of Health within 24 hours.

Milk.

An important change of law now places the appointment of the Inspector of Milk and Vinegar with the Board of Health, and gives the Board greater authority. While there are still conditions in the dairies and among milk dealers in the Town that should not continue, the Board feels that considerable progress has been made and that conditions will be improved in many respects. The importance of a careful supervision of milk cannot be over-estimated.

Tuberculosis.

The largest number of cases of tuberculosis was reported that has ever been reported to the Board, but the report and registration is far from being as prompt as it should be.

There were issued by this Board permits to the number of thirty (30) to take from the waters of flats of the Saugus River clams to be used for bait only.

The following Undertakers were licensed to conduct the business for 1910: H. Dwight Bisbee, Cliftondale; Benjamin F. Fullerton, Saugus; Darcy & Quick, Lynn; James M. Blaisdell, Lynn; William Cullerton, Lynn.

There were five (5) permits granted to clean out cesspools and vaults.

There were three (3) permits to slaughter within the Town limits.

There were six (6) permits issued to citizens to keep four or more horses on their premises.

We have given to the physicians of the Town two hundred bottles of Antitoxin for Diphtheria, which if bought and paid for by the citizens would cost three dollars at least a bottle, making a cost of \$600, which we are able to get from the State Board of Health free for the reason that your Board reports all contagious and infectious diseases in the Town to the State Board.

We have also distributed to the physicians about 65 Culture outfits for diagnosing Diphtheria which if the citizens had to pay for would cost \$2.00 each, and the same are diagnosed by the State Board of Health free, and if diagnosed by a private physician would cost \$2.00 more each, making a cost of \$260, which you have received free.

We have also distributed to the physicians 30 Sputum boxes for diagnosing Tuberculosis which is done by the State Board of Health free.

We have also issued to the school children who have been ill or exposed to contagious diseases about 300 certificates allowing them to return to school.

The number of premises in the Town placarded for contagious diseases was fifty-three (53).

The Board has approved 20 applications to maintain boarding houses for infants.

We regret that we were obliged to overdraw our appropriation last year but we consider this due to the increase of population and to the additional duties which have been imposed upon the local Board of Health.

We are now called upon to take charge of all contagious cases and to pay the bills which were formerly paid by the Overseers of the Poor.

We have never had occasion to comply with this act before but during this term we have had cases of diphtheria, scarlet fever and tuberculosis which have greatly increased our expenses.

This is in accordance with Acts of 1907, Chapter 386, as follows :

[CHAP. 386.]

AN ACT RELATIVE TO COMPENSATING THE COMMONWEALTH
FOR CARING FOR PERSONS INFECTED WITH DISEASES DANGEROUS TO THE PUBLIC HEALTH.

Be it enacted as follows :

SECTION 1. Chapter two hundred and thirteen of the acts of the year nineteen hundred and two is hereby amended by striking out section one and inserting in place thereof the following :—
Section 1. Reasonable expenses incurred by the board of health of a city or town or by the Commonwealth in making the provision required by law for persons infected with smallpox or other disease dangerous to the public health shall be paid by such person or his parents if he or they be able to pay, otherwise by the city or town in which he has a legal settlement, upon the approval of the bill by the board of health of such city or town or by the state board of charity; and such settlements shall be determined by the overseers of the poor, and by the state board of charity in cases cared for by the Commonwealth. If the person has no settlement, such expense shall be paid by the Commonwealth, upon the approval of bills therefor by the state board of charity. In all cases of persons having settlements a written notice sent within the time required in the case of aid given to paupers, shall be sent by the board of health, or by the officer or board having the powers of a board of health in the city or town where the person is sick, to the board of health, or to the officer or board having the powers of a board of health in the city or town in which such person has a settlement, who

shall forthwith transmit a copy thereof to the overseers of the poor of the place of settlement. In case the person has no settlement, such notice shall be given to the state board of health, in accordance with the provisions of section fifty-two of chapter seventy-five of the Revised Laws.

SECTION 2. Section two of said chapter two hundred and thirteen is hereby amended by inserting after the word "diphtheria," in the third line, the words:—tuberculosis, dog bite requiring anti-rabic treatment,—so as to read as follows:—

Section 2. No person for whose care and maintenance a city or town or the Commonwealth has incurred expense in consequence of smallpox, scarlet fever diphtheria, tuberculosis, dog bite, requiring anti-rabic treatment, or other disease dangerous to the public health shall be deemed to be a pauper by reason of such expenditure.

SECTION 3. This act shall take effect upon its passage.
[*Approved May 7, 1907.*]

Every year we are obliged to send patients to the Lynn Contagious Hospital for medical treatment for the State and for the Town. All of these cases are charged to the Board of Health of Saugus. If it is a State case we are reimbursed for two-thirds of the amount. The charge for cases of diphtheria and scarlet fever is \$15.00 a week; it generally takes six weeks for a case of scarlet fever, and not quite so long for diphtheria, before the case is discharged from the hospital. In cases of scarlet fever, it costs the town at least \$90 for each patient. We send those cases to the hospital where there are several children in the family, and where there are not proper conveniences, for treatment at home. We consider this to be for the public health and safety, and to give the patient the benefit of good treatment.

The statutes impose upon Boards of Health the duty of protecting the people from those causes and influences which may injuriously affect their health.

We have in Saugus about 1,750 children who attend school; statistics have shown the great prevalence of contagious diseases among school children. Schools are without doubt the means of spreading these diseases, from the fact that some attend school

in the early stage of diphtheria, scarlet fever and other diseases. There are many diseases of childhood which are most prevalent and fatal in the early years of life — schools are without doubt the means of spreading these diseases. It is the mild and neglected cases that spread the contagion and causes epidemic; it is among this class of cases that the special attention of the Board of Health has been directed. The Board is required to investigate the premises, placard the houses, to give instructions in regard to sanitary measures and after so doing to fumigate.

There are also some suspicious cases of contagious disease, which from time to time are reported to this board for examination.

The State Board is devoting much time and money in their investigation of Tuberculosis. At this time consumption is no longer given up as hopeless, but is considered curable in the incipient stage. Not only the lungs, but the spine, brain, joints, and nearly every tissue of the body is liable to be effected with this disease.

The organism which causes this disease was discovered by a former German physician, Dr. Robert Koch, in 1882, up to this date nobody knew what was the cause of this terrible disease.

Tuberculosis is caused by a very small germ called the tubercle bacillus, this is so small that it takes 3,000 put end to end to make one inch, a great many of these are found in the sputum which is coughed up by the patient, if this was destroyed, consumption would soon die out, but from carelessness when one spits upon the floor or sidewalk, it becomes dry, is ground up into a fine powder, and is inhaled by some one in a run down condition to receive the disease. Darkness or damp favor its growth, but direct sunlight destroys the germs.

The State is doing all in its power to prevent the spread of this disease and with coöperation of the patients the disease can be checked.

In various hospitals and sanitariums which are scattered all over our country and especially in Massachusetts (the leader in this movement) as well as in the homes of the people, consumption is being cured.

To show the prevalence of tuberculosis it has been found that of all the people who die every year about one-seventh die from consumption. When one considers the great loss of life in this country during the four years of civil war when there were killed about one hundred and fifty thousand men, which causes one to realize the horrors of war, and yet every year in the United States there are more than one hundred and fifty thousand people destroyed by this one preventable disease, consumption. Records show that the combined sum of all those who die of typhoid fever, diphtheria, appendicitis, scarlet fever, measles and cancer does not begin to equal the number that die from consumption alone.

Sanitoriums in the Commonwealth of Massachusetts are as follows: North Reading, Lakeville, Westfield and Rutland. These are now running at their full capacity. The price of board in these institutions is \$4 a week. According to the law, this is to be paid by the patient or friends. If the patient is not able to pay, the city or town in which he has a legal settlement, will be held responsible for the patient's board, if he has no settlement in city or town, the state assumes the charge.

These cases are divided into three stages. incipient, moderately advanced, and far advanced.

As a general rule the Rutland State Sanatorium is reserved for those patients who are citizens of the United States and who are in the incipient or favorable moderately advanced stages of the disease. This disease is doing its work silently but surely in our midst, it spares no one, neither the child, the youth or the adult.

To prevent or cure the disease, follow strictly all rules of health, live so as to keep healthy, have plenty of fresh air all the time, practice all out-door exercise, have good nutritious food, and refrain from spitting in public places.

Spitting on sidewalks, floors and platforms prohibited Acts 1906, 165.

Nowhere in the country is the organization and study and limitation of infantile paralysis better organized than here in Massachusetts.

Infantile paralysis is considered by Doctor Lovett of Harvard Medical School not to be a new disease. He states that it was known as early as 1774 and was accurately described in 1846. It generally appears in the summer months and disappears in December. While the disease is known to be communicated by germ, the germ itself cannot be detected as it is too small to be seen by any microscope.

We would advise parents to protect their children by keeping them away from other children who are afflicted with indefinite ailments and by not allowing them to go to gatherings where disease germs might be communicated.

LAWS CONCERNING NOTIFICATION OF OPHTHALMIA NEONATORUM.

Under any circumstances cases of Ophthalmia Neonatorum must be reported immediately in accordance with Sections 49 and 50 of Chapter 75 of the Revised Laws, which provide :

[REVISED LAWS, CHAPTER 75.]

SECTION 49. A householder who knows that a person in his family or house is sick of smallpox, diphtheria, scarlet fever or any other infectious or contagious disease declared by the state board of health to be dangerous to the public health shall forthwith give notice thereof to the board of health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the board, such rooms of his house and articles therein as, in the opinion of the board, have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the board of health of a city or town in which the parents or the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. * On receipt of such report, or of notice of the same symptoms given by a

physician as provided by the following section, the board of health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars.

SECTION 50. If a physician knows that a person whom he is called to visit is infected with smallpox, diphtheria, scarlet fever, or any other disease declared by the state board of health to be dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen and red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty nor more than two hundred dollars for each offence.

Quite recently a physician in Boston was fined \$50 who failed to report a case at the proper time. The prosecution was made by the Board of Health, which is convinced that many cases of ill health and blindness in later life may be avoided by treatment of the infant.

Street Railway, Excise Tax		3,129 54
Tax Rate per \$1,000		22 00

The Board of Assessors have reason this year to express much gratification at the results of the year's labor.

Out of a total appropriation of \$1,500, which was made at the last Town Meeting including searching of records, they have been able to save to the Town and return to your Treasury \$284.

That the work of the Board of Assessors is rapidly increasing and that it is to-day almost double what it was five years ago, must be apparent to the casual observer when he reads of the transfers of acres of land, that are being cut up into small lots of 3,000 feet and 5,000 feet respectively. The Board have given much time and thought to the equalization of tax values, but despite their efforts, matters for adjustment are constantly cropping up.

In view of the many calls, the Board would recommend that an appropriation be made at the next Town Meeting for a valuation book. This would be of much value to the Board in discovering existing errors, and of equal value to the citizens for the purpose of comparing values with adjoining estates.

In the economical work of the Board much credit and praise is due to your Clerk. She has been the true "Watch Dog" to your treasury, and by her battering and figuring much cash has

been saved to the Town. Aside from that, the Board at this time wish to express their thanks to her for much of the outside work and overtime work which she has done. At this time the Board also wish to thank the citizens at large for their patience, support and willingness they have shown in abiding by the Board's best judgment at all times after they have been shown that the Board has been solicitous and desires to assess equitably and conscientiously. The Board realizes that the work of the next year's Board will be much increased, but they are assured from past experience that whoever the Board may be composed of, they will have the coöperation of the citizens as in the past.

ERNEST L. NOERA,
LEWIS J. AUSTIN,
HORACE H. ATHERTON,

Assessors of the Town of Saugus.

Report of Cemetery Commissioners.

SAUGUS, December 31, 1910.

The undersigned respectfully submit the following as a report of the Cemetery Commissioners of the Town of Saugus for the year ending December 31, 1910. The within report of the Superintendent of the Cemetery is hereby made a part of our report. We think if we could have \$2,500 to use in the cemetery this coming year we could make some very much needed repairs in the walls. As you will see by the Superintendent's report we have made a start by setting out 75 new trees in the cemetery and if they all live we feel that in a few years the appearance of our Town Cemetery will be very much improved.

H. H. ATHERTON,
J. S. MEACOM,
WILLIAM E. LUDDEN,

Cemetery Commissioners.

Report of Superintendent of Cemetery for 1910.

Received for grading	\$330 44

Amount due December 31, 1910, \$384.25.

The present value of tools and working utensils is \$270.

CHARLES L. DAVIS,
Superintendent.

Trustees of the Public Library.

To Honorable Board of Selectmen :

The Trustees of the Sáugus Free Public Library beg leave to submit the following report.

We feel that we have accomplished a good deal with the money appropriated to our department. As the sum of \$100 was appropriated in addition to the regular amount for moving and as this amount was not enough to cover the expense of same, we were obliged to use quite a part of our regular appropriation in order to get things in good condition. On that account we have not been able to add as many new books as usual, 200 new volumes being added to the list.

Your Trustees have held many meetings and carefully considered each step and feel that as far as we could we have laid the foundation of a good Library room for years to come.

One feature that appeals to all is the amount of room, we have a stock room, separated from rest of room by rail, a reading room for adults and another for children, both of these having shelves containing many books around the sides.

There have been some delays over which your Trustees had no control, one of them was on account of the heating arrangement, the pump in the Roby school had to be sent away and repaired.

On the whole we feel well satisfied with work accomplished, but we feel that in order to put the Library on a basis where the whole Town will reap the benefit we must have a larger appropriation. One of the problems we are trying to solve is a way to get books to East Saugus and Cliftdale in some convenient way.

Your Trustees beg leave to note the receipt of and return thanks for following books and magazines.

Uncle Renus magazine from the publisher, "Dumb Animals."

"Conference of the Governors of the United States."

Prohibition, its relation to good government.

Report of Carnegie Hero Fund.

A Pathfinder, Discovery, Invention and Industry.

Everybody's and Current Literature, from Mrs. Edward Pranker Parsons.

Back number of magazines from Mrs. F. C. Cheever, Mrs. J. H. Hughes, Mrs. Kate Foster, Miss E. E. Newhall, Youths' Companion from Vincent Frazier and others.

Sincerely,

L. G. HAWKES, *Chairman.*

REPORT OF

Inspector of Plumbing.

Board of Health:

GENTLEMEN, — In accordance with the requirement of Chapter 103, of the Revised Laws of Massachusetts, of the supervision of plumbing, I herewith submit my report for the year ending December 31, 1910.

The number of inspections made during the year, together with the number of inspections, will be found on the table herewith annexed:

Total number of inspections	252
Permits issued	126
Permits refused	4
Cesspools inspected	129
Complaints of violation of plumbing ordinance	1
Violation of plumbing ordinance	1
Violation of plumbing ordinance investigated.	1
Miscellaneous calls	3

Respectfully submitted,

THOMAS C. SUTHERST,
Plumbing Inspector.

REPORT OF

Inspector of Buildings

To the Honorable Board of Selectmen :

GENTLEMEN, — I herewith submit my annual report to date :

Total number of permits issued	142
Total number of complaints investigated,	14
Total estimated value of buildings completed	\$170,178 00
Total estimated value of buildings not completed	90,000 00
	<hr/>
	\$260,178 00

Respectfully submitted,

DANIEL B. WILLIS,

Inspector of Buildings.

REPORT OF

Sealer of Weights and Measures.

JAMES F. PRATT,
Sealer of Weights and Measures.

Report of Cattle and Milk Inspector.

I have inspected the following number of slaughtered animals :

Beef	9
Calves	68
Hogs	75
<hr/>	
Total	152

All were healthy.

In making the annual inspection I inspected the following :

Cattle	825
Hogs	281
Goats	8
<hr/>	
Total	1,114

All appeared healthy upon physical examination.

I have delivered 22 milk licenses.

Respectfully,

A. W. SAWYER.

REPORT OF

Sinking Fund Commissioners.

Mr. H. B. Newhall, Chairman Sinking Fund Commissioners:

DEAR SIR,—I herewith submit for your consideration my report of the condition of the Town of Saugus Sinking Fund at the close of business December 31, 1910.

DR.

To balance from last year	\$727 34
Interest on Town of Merrimac bond	40 00
Interest on City of Boston bond	80 00
Interest on City of Cambridge bond	35 00
Interest on City of Everett bond	132 00
Interest on City of Gloucester bond	35 00
Interest on Town of Saugus bond	200 00
Town of Saugus bond redeemed	5,000 00
Appropriation for 1910	500 00
Accrued interest for one day	67
Interest on bank account	39 75
	\$6,789 74

CR.

By rent of vault	\$5 00
\$4,000 City of Holyoke bond due 1917	4,022 00
Accrued interest on above bond	42 67
\$2,000 Town of Watertown bond due 1916	2,000 00
Accrued interest on above bond	14 66
Balance on hand	705 41
	\$6,789 74

The condition and value of the Town of Saugus Sinking Fund January 1, 1910, is therefore as follows :

City of Everett bond due 1916	\$3,300 00
Town of Merrimac bond due 1915	1,000 00

Net total expense [*]	\$3,465 74

Total number partially supported during the year 73; fully supported in the Home 8; in private families 6; in hospital at Tewksbury 1.

The increase in the personal property at the Home was \$410.10.

The Overseers of the Poor, in submitting their annual report, regret that in some respects the showing is not as good as they desired; yet, upon the whole, they feel that their department is in a very satisfactory condition.

It became necessary to purchase two horses during this year to replace one stolen in September, 1909 and one that after working fifteen years we were obliged to have killed.

The Home is kept in excellent condition and the inmates well cared for. We were very fortunate in retaining the services of the warden, Mr. Carl Koch and the matron, Mrs. Koch, for the ensuing year. They have proved very efficient and both the farm and home have been well managed. In closing our report we recommend the sum of \$3,300 for the ensuing year.

GEORGE H. AMES,
CHARLES W. BAILEY,
ARTHUR C. CLARK,

Overseers of the Poor.

HENRY A. PARKER,

Tax Collector for the Years 1909 and 1910.

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
AND
Superintendent of Schools
OF THE
TOWN OF SAUGUS

FOR THE YEAR ENDING DECEMBER 31, 1910

LYNN, MASS.
FRANK S. WHITTEN, PRINTER
1911

SCHOOL COMMITTEE.

FRANK P. BENNETT, JR., *Chairman*, Term expires 1912.
HENRY T. CLAUS, *Secretary*, . Term expires 1911.
HARRY T. TURNER . . . Term expires 1913.

Bills must be presented not later than 5 P. M., of the date they are to be considered by the Committee.

Assignment of Schools.

To Mr. Bennett — East Saugus, Lynnhurst, Oaklandvale.

To Mr. Claus — High, Roby, North Saugus.

To Mr. Turner — Felton, Lincoln avenue, Cliftdale, Essex street, Emerson.

SUPERINTENDENT OF SCHOOLS.

WILLIAM F. SIMS

Office in the Town Hall.

Office hours: 4 to 5 P. M. on Monday, Tuesday, Thursday.

8 to 9 A. M. on Monday, Tuesday, Thursday,
Friday.

8 to 9 A. M. Wednesday, at Cliftdale Brick
School.

Residence, 15 Emory street.

SCHOOL CALENDAR.

Fall term (16 weeks), September 6 — December 22, 1910.

Thanksgiving recess, 2 days.

Winter term (12 weeks), January 2 — March 24, 1911.

Spring term (11 weeks) April 3 — June 16, 1911.

Grammar School Graduation, June 16, 1911.

High School Graduation, Tuesday, June 20, 1911.

NO SCHOOL SIGNAL.

2-2 on the fire alarm.

7.45 A. M., no session in any school.

8.15 A. M., no session below ninth grade.

11.30 A. M., or 12.45 P. M., no afternoon sessions.

FINANCIAL STATEMENT.

RECEIPTS.

Town appropriation, March, 1910 .	\$41,000 00	
Overdraft of previous year . .	478 90

	<hr/>	
Balance	\$ 34	

For details of Special Repairs Expenditures see Auditor's Report.

Report of School Committee.

Despite a number of extraordinary and unforeseen expenses the Committee submits what it considers a very satisfactory financial showing. Though the arrangement whereby \$80 a month is paid for rent, heat and janitor service in the Masonic building had to be continued, though additional teachers had to be secured for the ninth and sixth grades, though pupils of the latter grade had to be transferred from Cliftondale to the High School building, and though the law compelled the installation of drinking fountains in all the schools, the Committee was able to keep within its appropriation. In obtaining this result good fortune played almost as large a part as ordinary business caution and economy.

Changes in Teaching Corps.

Every year brings numerous changes in the teaching corps. The slender means of the town, comparatively speaking, makes this inevitable. The year just closed however, brought more losses of our best than we had anticipated and our fear which is almost an expectation, is that each succeeding year is likely to make heavier inroads into our force of instructors than the preceding twelve months. The only remedy for this condition is a more rapid increase in the valuation of the town than has been occurring, or some form of contribution toward the support of our schools from the state treasury. By this means larger salaries for teachers might be made possible, and the incentive for them to leave us for employment elsewhere be made less strong.

Mr. Whitney's Departure.

No loss of recent years has been more keenly felt than that occasioned by Mr. Whitney's selection by the City of Everett to be superintendent of its large school system. The very substantial increase in salary which this call promised him, made his acceptance of it a duty to himself and his family, but it was no secret that Mr. Whitney left our town with much regret, for during his two years with us, he had made our schools so much a part of his life, that the change seemed to him, as it did to us, almost equal to the breaking of a family tie. That the schools improved materially under his supervision is not to be denied, and many of the improvements which he installed are of so permanent a nature that the influence of his stay with us will still be felt for a long time to come. Your committee feel that their choice of him two years ago constitutes one of the best pieces of work they have been able to do in recent years.

The New Superintendent.

Mr. Whitney's successor, Mr. William F. Sims, was selected after a very thorough canvass of the list of candidates and after consultation with those whose advice seemed to us likely to be helpful. The committee required every candidate to make application first to Mr. Whitney and only the two or three who seemed to Mr. Whitney best fitted for the post were given personal investigation and an interview by the whole committee. Mr. Sims' experience has been rather unusual. A successful superintendency of eight years in Massachusetts where he has been all of the time under the watchful eye of the agents of the State Board of Education was preceded by an even longer term as school-master. From these two periods of preparation he gained that practical knowledge of the details of a school-master's work which many principals lack. Moreover, during his superintendency at Southborough and vicinity he has had to handle one of the very problems with which he must deal in Saugus, the installation and early management of a manual training system.

Mr. Butterworth succeeds Mr. Ross.

The resignation of Mr. Leland A. Ross as principal of the High School was generally regretted. His lovable nature had endeared him to pupils and the people of the Town alike. The heartiest good wishes of all Saugus go to him in his new work as superintendent of schools at Dexter and Garland, Maine. Mr. James F. Butterworth, who has succeeded him, was selected by the committee by much the same plan as was followed in the choosing of Mr. Sims. Mr. Whitney was instructed to present for personal interview with the committee only the two or three best equipped candidates of the many who applied. Mr. Butterworth was for ten years the successful principal of Monson Academy at Monson, Mass., and during the year which intervened between that service and his coming to Saugus, he studied in the Department of Education at Harvard University under Professor Hanus the problems of principalship which daily confront him now in high school work. His success with us appears already to be marked and our intention is to invite him to remain a second year at an advance in salary if sufficient funds are appropriated by the Town.

Manual Training Popular.

The new manual training department in the old Town Hall is proving to be popular among the eighth and ninth grade boys, and sewing for the girls in the same grades is also proving beneficial. Of course, this department has not been in operation long enough for the tangible results to be tested, although some of the work turned out has seemed to the Committee to be very creditable. Each pupil in these grades receives one hour of instruction each week. No more time can be given until sufficient means are available for hiring the teacher of manual training and the teacher of sewing more than one day each week. Your Committee have not felt justified as yet in asking for the increase in appropriation which that would require. For teacher of the boys, Mr. S. P. Condon, a former foreman of the wood working department of the General Electric Company at Lynn, has been chosen and appears to be doing efficient work. His

long service on the School Committee of Swampscott has given him an insight into broader educational ideals which is very helpful. For teacher of sewing, the same teacher was chosen as for drawing instruction, this plan having been proven feasible by Miss Allen's experience in both lines.

Oaklandvale School Problem.

Your Committee are inclined to believe that beginning with the first of September, 1911, the Oaklandvale School should be closed and all pupils who live in that section be transported to the Roby School at Saugus Center. It has proven almost impossible to keep a thoroughly satisfactory teacher at that school for more than a year at a time, and this has caused instruction there to be of most variable quality. Moreover, no teacher can do her best work when she must be at one and the same time giving instruction to anywhere from six to eight grades of pupils, varying in age from five to twelve years. Our belief is that no additional expense to the Town will result from an arrangement with the electric railway to carry all of the Oaklandvale pupils to the Center, and some slight saving may result. Pupils are certain to receive better instruction than now, under more comfortable conditions. The Committee recognize, however, the strength of the argument of those people who would assert that Oaklandvale District is entitled to schooling facilities for its smaller pupils and would like to hear from all who object to the change. If no objections are raised by any considerable number of parents between now and August 1st, the Committee will feel entitled to assume that the proposed change meets with general approval at Oaklandvale.

Coal Supply.

In accordance with custom the committee this year called for bids for the supply of coal for the season 1910-1911 and awarded the contract to the Lynn Coal Company, which was the lowest bidder. There has been considerable unjust criticism of the committee for allowing an out-of-town concern to bid for this contract. While it is true that this year a local dealer was a

close second bidder the committee feels that the money of the Town should go where it will purchase the most and has awarded its contract with that end in view. It is not assuming too much to say that if the committee had eliminated the Lynn firms from the competition the Town in the past would have had to pay a great deal more for coal than it does now. Anyone who feels that this statement is unwarranted need only look at the following schedule of prices of fuel before and after out-of-town companies were allowed to bid.

	Year	1907	1908	1909	1910
Cost of fuel		\$3,677	\$3,445	\$2,843	\$2,810

In the years 1907 and 1908 bids were received from local dealers only. In 1909 and 1910 out of town firms were allowed to bid. The cost of fuel for this year has been less than it has been for a number of years. The following schedule will show the different bids received by the committee for this season's supply :

	Lynn Coal Co.	Stocker	Butman & Cressey	Stiles	Peoples Co
George's Creek	\$3 95	\$4 35	\$4 15	\$4 00	\$4 25
Lackawana Egg .	5 68	6 00	5 67	5 85	6 50
Lackawana Broken .	5 29	5 60	5 38	5 60	6 25
Lackawana Stove .	5 68	6 00	5 67	5 85	6 50
Lackawana Nut .	5 68	6 00	5 67	5 85	6 50

The method used in securing the coal supply is as follows : After the contract is let the committee sends an inspector to the office of the coal company. His duty is to see to it that the coal is properly weighed. He signs a weight bill and keeps a record of it in a book for that purpose and when the coal is delivered the janitor must sign for it on the same slip that is signed by the inspector. Before the coal bills are approved for payment they must agree with the ticket signed by the inspector and the janitor. In the case of soft coal the coal company must show its bill of lading indicating the coal to be genuine George's Creek coal. The coal company also gives a bond with two securities for the faithful performance of its contract.

Four Years Diplomas Only.

When the class of 1913 leaves the High School the last three year diploma will have been granted. In adopting this policy the committee believes that it will have the support and endorsement of the citizens of the town. A sense of justice and the reputation of the school seems to demand that four year's work shall alone be rewarded with a diploma. This policy must not be regarded in the light of discrimination against the three years' English course. Children who do not feel that they will be able to complete the work required for a diploma will not be discouraged from continuing their education; they will, on the contrary, be urged to enter the High School and if they pursue their studies for three years in a satisfactory manner, they will be granted a certificate to that effect. The integrity of the diploma seems to require that there shall be a definite standard of work needed to secure it. Such can never be the case when that diploma is granted indiscriminately. To the average employer of labor a diploma is a diploma; he seldom concerns himself with a study of its contents. His general understanding is that it represents four years work. It is hardly fair, therefore, to the High School to have the impression go abroad that our three year graduates are the product of four years study.

A Higher Entrance Age.

In conformity with the best educational policy of the day and in the belief that the financial and scholastic interests of the town will best be served by a raising of the age limit at which children may enter the public schools, the following resolution was adopted during the current year :

Voted, that beginning with September, 1911, the minimum age at which a child may enter school be six years, but,

Voted, that any child who will be six by January 1, may enter school the previous September.

The operation of this plan will probably reduce temporarily the number of school children, but it should also result in the faster progress of those who remain, because it is being recog-

nized more and more that the average child of five years is hardly mature enough to understand and appreciate the work done in the primary grades. In this connection, a kindergarten would be a desirable innovation, but from the standpoint of the town's financial condition, it seems likely that nothing can be accomplished along this line for some little time to come.

The Noera Scholarship.

In accepting the offer of Mr. Ernest L. Noera of the Board of Assessors to provide during the coming year the sum of \$100, to assist some deserving boy in the High School to continue his education in a reputable college, the committee, with the approval of Mr. Noera and Mr. Butterworth, formulated the following conditions :

1. The student must be of good character, deserving and in need of college aid.
2. He must possess a good scholastic record during his course in the High School.

Applications will then be judged by the committee from the point of view of the applicant's character, scholarship and financial need. All applications must reach the committee by May 1, 1911. The school board naturally reserves the right to reject any and all applications.

It is believed that the conditions imposed fully and adequately meet the spirit in which the scholarship is given.

The Essex Street School.

The Essex Street School, situated at the corner of Essex street and Pleasant avenue, has for a number of years been heated by jacket stoves, one in each room. This system of heating is not only very old-fashioned but also unsatisfactory. With it no good system of ventilation can be had. Inasmuch as each child should be supplied with thirty cubic feet of fresh air per minute, the committee has agreed that it is only fair to the pupils that something be done to better conditions at this school.

The committee had the State's Chief Inspector of Public Buildings visit the school and go over the situation with it and make suggestions as to suitable improvement. A heating and ventilating engineer were then interviewed and finally several concerns were invited to submit plans for a heating and ventilating plant. Your committee has thus had before it a number of different plans for this work. Careful attention has been given every detail to the end that the school may have the very best system for the least expenditure of money.

At this time the committee has under consideration what it considers the best set of plans and specifications that the Town can obtain at a nominal cost. The committee goes into the Town meeting with a request for an appropriation to do a work which seems absolutely necessary.

Respectfully submitted,

FRANK P. BENNETT, JR.,
HENRY T. CLAUS,
HARRY T. TURNER.

Report of the Superintendent.

To the School Committee of the Town of Saugus:

The eighteenth annual report of your Superintendent of Schools is herewith presented. It includes the usual reports, tables and statistics. During the short time that I have been connected with your schools I have found in them much to be commended. I find your teachers well equipped by training and experience for doing the work that they are undertaking. As is the teacher so is the school. The zeal and enthusiasm of the school is limited only by that of the teacher. A teacher finding a class devoid of interest in any particular work will find the cause for this condition in her own lack of interest.

The least commendable feature of your school system is the length of service of some of your best teachers. The too frequent change even of excellent teachers tends to lessen the efficiency of the school system. Consequently, we are unable to get from the teaching force its maximum efficiency. No teacher can give her best service to her school when she is anxious to be at work elsewhere. The conditions should be such that no teacher who has taught in our schools less than three years would desire to leave us before the end of our school year. To bring about this condition is indeed a serious task. Being forced in most cases to offer our maximum salary at the start we have nothing left to retain the efficient teacher much longer than one year.

Taxation and state aid are the only remedies that can relieve this condition. For the present there is little hope in either for us. It is a matter for serious reflection when our burden of taxation for the support of schools is more than double that of many of the towns and cities of this commonwealth. Why is

this a just condition when the education of our children is not so much for the Town of Saugus as it is for the commonwealth? The cost of living for the teacher and the training demanded for our children is well nigh identical with that in the other towns and cities of the commonwealth, yet we are without the means for adequately meeting these demands.

Your schools are also to be commended for the uniformly good discipline that prevails in them. This is partly the result of the pupil's interest in their work awakened by the magnetic influence of efficient teaching. Interest is the key to all successful discipline. Without it lessons will not be thoroughly learned and the rattan is powerless to bring relief.

Association of Parents and Teachers.

While commending the tone and atmosphere of your schools I would at the same time remind you that it is possible to make the pupils' interest keener and the instruction more effective. Our means demand that we have better schools. What we need is more helpful attention from those immediately concerned in the welfare of our schools. To point out evils is often an easy task but to offer something good in the place of the evil is a goal not frequently sought by the would-be critic. An association in each of our schools composed of parents and teachers could do much for the betterment of our schools. We need to learn the real character and worth of our schools. It is incumbent upon teachers and parents alike to know each other and the work the schools must do. If we ourselves do not believe in the efficiency of our schools neither will our children. We will consequently find that we are paying for the support of better schools than we actually have.

Coaching Teachers.

At present we have three teachers giving their entire time and attention to the elimination of the repeater in the elementary schools. Under conditions such as ours if one of these teachers succeeds in preventing twenty pupils from repeating the year's work then she entails no additional expense to the school system.

If she is the means of preventing forty repetitions then she returns to the system one hundred per cent profit. If she does away with only ten repetitions the work would amply justify the necessary expenditure. By limiting the classes of the special teacher to six pupils we hope to make the work sufficiently individual to enable these backward pupils to keep up with their classes. When a pupil has had this extra individual help for one year I question the wisdom of compelling him to repeat the year's work even if his rank falls a little low. Few of our pupils will require this aid continuously for a year. We are finding that in a short time many of these backward pupils are enabled to keep up with their classes for a while unaided by the special teacher. The special teacher then works with some other pupil more in need of help. The special teacher is not an assistant to the regular teacher in that she is to perform a part of the regular work with the whole class. Indeed the special teacher should never find it necessary to work with over twenty-five per cent of the pupils in a given class. If more than ten or twelve per cent of a class find it impossible to do the work at hand then we may be sure that there is some serious defect somewhere in our school machinery. So the place of the special teacher is not in front leading the class in any of its work, but in the rear gathering up the stragglers lest any fall by the wayside. Wherever the schools are so organized as to give more than thirty pupils to each teacher there will always be work for a special teacher. If the class does not exceed thirty pupils the regular teacher will find time for the necessary individual instruction.

In East Saugus and Clifondale the work of the special teachers is too large to be done effectively by two teachers. One day per week in a four-room building is not sufficient to secure immediate and permanent results. Another teacher, even for a part of the year, would add much to the effectiveness of this work.

Last year in those schools where special teachers were employed the failures were ten per cent. In these same schools for the year ending in June, 1908 the failures were fifteen per cent. This means that the three special teachers for the time they were employed last year prevented sixty failures, possibly more.

Manual Training.

Since September bench work for boys and sewing for girls have been carried on one hour per week in the eighth and ninth grades. Also some pupils in the High School have taken the work at the same time with the above named classes. The following schedule shows the time devoted to this work.

Bench Work.

Mondays in Old Town Hall.

8.45-10, A Division of Grade IX.

10-11, Roby School, Grade VIII.

12-1.15, B Division of Grade IX.

1.30-2.30, Felton School, Grade VIII.

2.30-3.30, East Saugus and Lincoln Avenue, Grade VIII.

While the boys are away for bench work the sewing teacher goes to the schools and gives the girls sewing lessons.

The work is good as far as it goes. The teachers are competent and the pupils are interested. An exhibition of the work will be made in June. Next September the work should be expanded if we wish to secure results that make it worth while to attempt a course of manual training in our schools.

The next step in expansion is to give the ninth grade two hours of work per week. At present, the entire work of a year is less than one week of continuous work. As an apprentice in any work a boy could not learn very much in so short a time.

Our next step would be to start the work in the seventh grade one hour per week. Some of our pupils leave school before entering the eighth grade. These may be the ones most in need of manual training. For those who complete the eighth or ninth grades this earlier training is needed in order that they may profit to the fullest extent from the opportunities that we are now offering.

Our next step would be to extend the work to the first two years of the High School. Some of the lathe work by the High School pupils could be done while the other classes are doing bench work and thus lessen the time for which a teacher would

be needed. Five hundred dollars for added equipment would be ample for doing all this work.

So far I have been speaking of the training for the boys. The same amount of time should be given to the girls. Sewing one hour per week for grades seven and eight, cooking two hours per week for the ninth grade and sewing and cooking for the first two years of the High School. One cook room in the High School at a cost of \$500 would be sufficient for all time.

Taking it for granted that the people of Saugus believe in manual training I make the foregoing suggestions with a desire to secure the best results possible from this sort of school work. Like everything else that is worth while, it requires time to secure lasting results. Much of this time is apparently taken from the regular work of the school. As manual training requires no previous preparation for the recitation period, the pupil has nearly as much time for study upon other lessons as he does without manual training. Fewer recitations in geography may follow the introduction of manual training, but that does not mean a loss of intellectual growth for the pupil. A pupil's knowledge of a given subject is not wholly dependent upon the number of recitations allotted to that subject in his school. The skill of the teacher has much more to do with getting the pupil to make the effort necessary to get the desired result. Some teachers accomplish more in two or three recitation periods per week than others in five. It is a question of intense concentration rather than one of prolonged consideration. Too often the work of the recitation moves so slowly that it fails to attract the attention of any one. I have seen the school day of some grades shortened one-half without any apparent or perceptible loss of efficiency for the year. Seldom will more than half of the school apply itself seriously and voluntarily to the work of the school. To prevent loafing and shirking is a problem that will always demand the attention of the teacher. The indispensable element of success here is the same as in all effective teaching, namely an abundance of interest and enthusiasm on the part of the teacher. Herein lies the secret of the success of the specialist. While it may be impossible for one to acquire the profi-

ciency of a specialist in all of the many things that a public school teacher is called upon to teach, yet the zeal of the specialist within the limits of our time and strength is not an impossibility.

As important and necessary as is this industrial work which we are attempting yet it behooves all of us to see to it that it does not become a detriment to the cultural side of our school system. If properly managed it will become a credit to the system and an additional means for increasing the intellectual growth of our pupils. We believe in manual training not for the purpose of training common laborers, not for the purpose of discrediting the value of cultural training, but as a means for quickening the intelligence thereby enabling the pupil to earlier attain a higher plane of living. It is not vocational in the sense that it makes carpenters, bookbinders or machinists. It is simply bringing the hand under the control and subjection of the mind so that it may more readily execute what the mind conceives.

A Commercial Course in the High School.

An efficient commercial course is industrial training and generally precedes the introduction of manual training in most public school systems. By an efficient commercial course I mean one that makes of the pupils competent bookkeepers, stenographers and typewriters. In most High Schools where this course is given it is taken by forty to fifty per cent of the pupils. I mention this to show that the High School that offers a commercial course comes nearer to meeting the demands of its supporters than one that does not. An examination of the annual enrolment sheet will show that the growth of our High School has not been commensurate with that of the other schools. While academic training is practical and profitable for any who will pursue it yet, it has little attraction for a large number of our young people. I believe that the membership of our High School would be increased fifty per cent in a few years if we maintained a first-class commercial course. To introduce such a course does not require an increase in the number of our High School teachers but simply the purchasing of a few typewriters at one-half the trade price.

Recapitulation.

One more coaching teacher for East Saugus and Cliftondale.
More time for our present course in manual training.

A longer course in manual training beginning with the seventh grade and including cooking for the ninth grade and the first two years of the High School.

There never was a time when these improvements to our school system could be made with less expense than now.

Respectfully submitted,

WILLIAM F. SIMS,

Superintendent of Schools.

High School.

Mr. William F. Sims, Superintendent of Schools:

DEAR SIR,—I herewith submit my report for that part of the school year in which I have acted as principal of the High School—from September, 1910, to February, 1911.

It is a difficult task to make a report on educational matters that is anything more than merely a superficial estimate of conditions when one has had but a very few months to observe those conditions. At the best in making recommendations for things educational one should know intimately about the people who send their children to school, the traditions of the town and of the school, and, above all, the needs of the town itself, especially from an industrial and commercial point of view. However, in the brief space of time that I have acted as the administrative head of the High School, one or two facts that have come to my notice could well be brought to the attention of the Superintendent and the School Board.

The Town, lying as it does, so closely to a number of cities and large towns to the north of Boston, is thrown into a kind of general competition with those cities in educational matters and especially into direct competition with the large private business or commercial schools in the vicinity.

The question is often asked, who shall be the judge of the values of a certain school and of its limitations. While the colleges may judge the efficiency of a school by the record of a very few students who enter college, yet it is the business man or the manufacturer of the nearby towns and cities who really and finally is the judge of the powers of our High School boys and girls. For while the college judges the High School by the work of, at the best, but four or five students that have been influenced by the school, the business public estimates the value of the fitting school from the record of the forty to fifty non-college pupils who have gone into business, commerce or manufacturing, after a high school training of from one to four years. This criticism was hardly due a generation ago. Formerly a secondary school was invariably judged good or bad by its ability to fit its pupils for the entrance examinations to the colleges. To-day when the range or scope of work offered by our eastern colleges is being criticised so profoundly, indeed so much so that in many quarters the efficiency of the college as an institution is even questioned, the public looks not to the college as the judge of the ability of the secondary school to prepare its pupils but to the more general business world that says, "Does this school prepare in an accurate, practical way its pupils so that they are able to get on in life and get on successfully?"

It would seem, considering our present day needs, that the function of the Saugus High School must be two-fold, first to fit those of its pupils who wish to enter college, with a suitable training, cultural and practical as well, for higher institutional work, and, secondly, to give to all who may not have the opportunity to go to college but whose aim is business, or trade, or agriculture as thorough a training as possible for their life work. This two-fold duty of a High School is surely our duty. We must aim at culture and we must aim at utility for our boys and girls, but only in either case in so far as neither harms the other. If tradition stands in the way of utility it must be ridden over. If utility debases the cultural aims in life it must be trained to better morals. In a word, whatever subjects we offer in school must be made to stand a certain test, and that test is what the life

of the child is to be, his social status, his environment, his outlook on the next two decades of the life he is to live as a part of the world.

The conception of the function of a High School that should control the organization of such a school in Saugus is that such a public institution is supported by the people because of its necessity in the training of the youth of the town to efficient citizenship and because this efficiency is absolutely the very life of our social institutions themselves. To reach social efficiency the individual pupil must develop his powers in some form that will be useful to himself and to others. To attain to a high social efficiency he must be able to adapt himself to the demands of changing conditions. Above all, the boy or girl must be so trained that his ideals of social relations and duties must be right if he is to make good use of both his natural powers and his acquired skill. We should aim in our High School for a high degree of specialized skill so far as our time and financial means permit, but this skill must be combined with adaptability in the pupil,—the power to recognize new elements in a new situation and properly to apply all past experiences in his treatment of the new problem.

Our ninth grade work should give the basis for the formation of particular habits in the pupil and our four years' High School training increasing by the powers of skill and adapting oneself to new problems. The prime aid of the ninth grade school is to give to the pupils a thorough training in the school arts, *i.e.*, reading, writing, numbering and the like, and to introduce them into the elementary parts of a fairly large variety of subjects, as language, mathematics, history, natural science, sanitation, and economies, not so much to obtain profound information about the facts of these subjects as to open to the pupils a gate, as it were, to that field where their own individual mental activities can most valuably be given free play.

The combination of skill and adaptability in the upper grades of the High School can be reached through the ideals that can be created in the mind of the student as he acquires any special skill in handling a subject. Though skill in one line of school

work will not bring as great success in another, yet the ideal formed in the acquisition of skill in one thing will serve as a stimulus and a sort of governor in the shaping of habit, when the pupil attacks a new untried piece of work. A student's ideals arising as the result of experience must therefore expand in scope when his experience widens. The aim of the faculty of the school this year has been to have the organization of the school such that the development of the pupil shall be from the point of view of skill, adaptability, and right ideals.

Our town lying so close to cities contains the elements of both city life and village life. The needs of two types of people then will have to be met. The school affecting so deeply the formative period of a boy's life should be a counterpart of the adult life around him. His course of study and other school activities should present to the pupil as many types as possible of those things that interest and affect men in the different phases of life. In keeping with this principle, much of the work in science has been strengthened, we feel, by courses that aim to associate the principles of each science with the practical things of every day life, whether they have to do with Chemistry, Physics, Biology, or Physiology. Special emphasis is being laid in our classes on nutrition, ventilation, sanitation, infection and sepsis.

The three courses in Physics and the course in Chemistry are at present dealing with many of the problems of daily life, *i. e.*, with the arts and manufactures that distinguish modern civilization, domestic science, medicine, and the chemistry of foods and soils. The treatment of all the science work includes recitations, laboratory work, field trips, lectures, and demonstrations. The cost of such instruction must of necessity be increasingly large, but it would seem a thing of necessity if the High School is to even approximate the work done in neighboring places.

The study of Greek has been added to the program this year, and a fairly large class of first-rank pupils has elected this cultural study with pleasure to themselves and with added prestige to the institution.

Pupils, moreover, are pursuing this year advanced courses in Solid Geometry and Trigonometry.

One definite need of the school is a deeper and richer course in English for the ninth grade, a course that reaches down with proper articulation into the lower grades and up into the four years' work in the High School.

The urgent needs of the High School itself are a course in Domestic Science and a strengthening of our commercial work by the addition of instruction in Stenography and Typewriting,—this last being especially necessary to meet the competition of the business schools of nearby cities, which early attract many pupils who have entered upon a High School course. The motive in giving a commercial course should be a double one, first, to prepare those of our pupils who may enter simple clerkships, and, secondly, to give to those who have the ability to accept heavier responsibilities in business houses a few years after graduation, the opportunity in their four years at school to secure a thorough training in the elements of a business life, especially in the study of commercial law, in the study of materials, of accounts; and of the methods of buying and selling.

Futhermore, a course in Domestic Science ought to be given. Such a course could be arranged for at no great expense to extend through a period of two years and to comprise cooking and chemistry of foods, dietetics, laundering, household accounts, simple household bacteriology and home nursing. An excellent opportunity would arise from such a course in giving correlation with the work already being done in the Chemistry, Physics and Physiology classes. The immediate aim of a course in Domestic Science would be to teach the selection, preparation and serving of wholesome, appetizing food and the avoidance of waste; the processes of cleaning clothing and dwellings and the preservation of health by the careful observance of sanitary laws; the prevention of sickness and the care of the sick by the most approved methods in science.

The introduction this past year of work for manual training and sewing classes has been satisfactory so far as the shortness of time given to such instruction permits. In some way double the time at least—still more if possible—should be given to the manual training classes if results are to be at all commensurate with

the outlay for instruction, material, and tools. The one period per week that is now given for this work in the ninth grade or in the High School is all too short. The same criticism may be made of the time allotted to drawing and sewing in the school.

From a disciplinary point of view the school is in excellent condition. The corps of teachers is a very strong one, their energy and judgment being specially marked, the pupils are responsive and show interest in their school subjects. Indeed the year so far, considering our limited equipment for extended laboratory and practical manual instruction, has been a very successful one and shows great possibilities for thoroughly good work, not only in preparation for college but in preparation for the problems that arise in gaining a livelihood and in living an all-round efficient life. The school as an institution is altogether too small in number when one considers the population of Saugus. A richer program of work in commerce and practical domestic science cannot fail to increase the number that would attend next fall.

The school is woefully lacking in not possessing suitable reference books for science, history and literature study. We need an expenditure of at least something over \$100, for proper up-to-date reference books in these three subjects. Good work cannot be done with poor tools, even granting that our teaching force may be a strong one.

Respectfully submitted,

JAMES F. BUTTERWORTH.

Music Department.

Mr. William F. Sims, Superintendent of Schools:

DEAR SIR,—I have the honor to submit to you the annual report of the Music Department.

It is the aim of the department to develop a consistent and logical course of study to be followed consecutively through the elementary grades. This course is based on the New Educational Course, adapted to the needs and requirements of the school.

The object of the course is fourfold: first, to develop in the child a love and appreciation of good music; second, to develop a pleasing and musical voice; third, to develop the ability to read music at sight, and fourth, by the power to render songs understandingly.

For the attainment of this object the daily work is assigned under four divisions: voice training, sight singing, song study, and written work, with the addition of note singing in the elementary grade.

By voice training is not meant vocal training in its general meaning but the application of a few simple principles to induce proper breath control and tone production. Aside from the beneficial results, from a physical standpoint, the pure, sonorous quality of tone thus obtained greatly adds to the children's interest and pleasure in the music.

Sight singing, or a study of tune and time, is quite as valuable a mental drill as any study in the school curriculum. By time study, is meant the relation of the various tones of the major scales to each other, and of the common melodic intervals. Time study embraces the beat, measures, and rhythms, *i.e.* musical notation.

Song study, also, is a mental drill, as the ability to render songs understandingly demands absolute concentration of the child's mind upon the work before him. Through the art of interpretation, the child learns to think of music as a means of expressing emotion; in other words as a language, and with increased knowledge and understanding, we obtain increased interest in any line of work.

In the elementary grades, song study is supplemented by rote singing.

Written work is invaluable in music as in all studies, as a means of definitely bringing to the child's mind musical notation. Whatever a child can correctly write from memory is clearly understood by him. Throughout the grades, written work is assigned, both within his comprehension and corresponding with his daily musical study.

The department desires to thank the Superintendent and teachers for their hearty coöperation in the work.

Respectfully submitted,

MARY E. BERRY.

Manual Arts.

Mr. William F Sims, Superintendent of Schools:

DEAR SIR, — In this report I wish to include a statement of my aims in the manual arts under my direction and an estimate of the results thus far obtained. The subjects included are free-hand and mechanical drawing, manual training (except wood-working), and sewing.

The two general aims are to train the pupil to appreciate beauty, and to give him experience which will both enrich his life now, and be of real use to him after leaving school. In partial detail these aims are :

In Grades I and II.

To encourage the desire for graphic expression.

To form a habit of readily employing this means of expression.

To develop muscular control.

To store the memory with a knowledge of simple forms and symbols.

In Grades III, IV and V.

To give greater control of the hands.

To train the ability to see, express and remember, shape, relative size and proportion.

To develop the power to think out the construction of objects.

In Grades VI, VII, VIII and IX.

To give opportunity for advanced manual processes.

To obtain independent constructive thought.

To impart a knowledge of geometrical figures and solids.

To produce more exact representation of objects.

To develop a desire for good design and harmonious color combinations.

In the High School.

To develop some of the principles of representation, color and design.

To give the opportunity to apply these principles.

To work out and apply the conventional methods of mechanical or constructive drawing by working directly from the object,— not from copies.

It must be remembered that the most important result of this work in all grades is not that which the pupil records upon paper, but that which is imprinted upon his mind. This idea should govern all instruction.

The teachers have supported me well in striving for these ends and owing to their interest and earnest effort I have eagerly noted the quickening of interest among the pupils. With the increased interest the inevitable result has been an increased ability to do and to think. The work produced has been very encouraging. Still better results will be obtained when it is possible to fully correlate with the regular grade work.

The High School work is carried on under disadvantages. The crowded condition of the building of course effects these classes, but the principal difficulty comes in the time allotment.

The amount of instruction per week is as follows :

Freehand class (2d., 3d., and 4th., year pupils) 40 minutes.

Freehand class, (1st., year pupils) 20 minutes.

Mechanical class (1st., year pupils) 20 minutes.

This is quite inadequate for the amount of work needed by these pupils, and it is greatly to be hoped that this condition will be remedied.

The sewing classes consist of 128 pupils including the girls of the 8th., and 9th., grades and a few from the High School. The earnestness with which they have worked indicates that this course has answered a real need. Progress has been good. As nearly all the girls needed to start with the fundamentals it has

been necessary to conduct the work of both grades along practically the same lines. With the second year of work, this would be changed to a graded course to meet the needs of the pupils.

Respectfully submitted,

RUBY G. ALLEN,
Supervisor of Manual Arts.

Report of Instructor in Manual Training.

Mr. William F. Sims, Superintendent of Schools:

DEAR SIR,—The manual training department was inaugurated on September 13, 1910. It is located in the old town hall building, on the first floor, which is admirably adapted for this purpose as it is a large and well lighted room. After consultation with your predecessor, Mr. Fairfield Whitney, who took the matter up with the School Board, I was instructed to go ahead and fit up this department along the lines I had suggested with the result that we procured iron bench legs and constructed a continuous bench on three sides of the room, using heavy maple plank for the front and lighter stock for the back. This arrangement affords ample light for each bench and leaves a greater part of the floor space free for assembling pupils before the demonstration bench for instruction in the use of the various tools and the work to be done. This also left room for installation of the necessary lathes for the advanced class next year. Here I wish to urge the importance of maintaining classes of not over twenty pupils each and extending the time of instruction to two hours for each lesson. This, I think, could be accomplished by giving three days each week, one-half of the time to be devoted to the advanced classes and the other half to the new classes which will enter the work next year. It will probably be necessary to install at least six or eight lathes for the advanced classes. The instructors' demonstration bench is of maple plank mounted on double iron legs and fitted with a Wyman and Gordon quick action vice which I consider among the very best

made. Through the kindness of the Superintendent and the School Committee there has been installed a motor driving saw bench which adds very much to the facilities for preparing the material for use. Each bench has been equipped with a fine assortment of tools aside from a complete set for general purposes. As the appropriation for manual training purposes became exhausted it was necessary to omit the purchase of a few tools which I shall recommend buying for use during the coming year.

Course of Study.

It has been my intention to give each pupil a thorough training in the elements of carpentry and an intelligent knowledge of the tools and material and their uses. The pupils who enter the Massachusetts Institute of Technology or any other technical school will thus be able to more quickly grasp the problems put before them and thereby gain much valuable time for the work in the advanced courses. If pupils are not to enter such institutions but follow up their training in industrial pursuits they will still find it of much value to them, as it develops application, accuracy, self-reliance and industry, qualities of use in any walk of life. It stimulates ambition and a high order of mental activity. It demands patience and enlightens the mind upon the orderly and systematic treatment of subjects. Various principles are brought into action in the development of the work which should be so arranged that no pupil will be taxed beyond his powers. Those who work accurately are given the opportunity to do more advanced work and are thus encouraged to put forth their best efforts. When the pupil has mastered the difficulties of a given task to the best of his ability a new problem is given him. The mastery of correct methods and the formation of good habits are considered of much more importance than the amount of work done.

After opening the course with such models as will give the pupils a general insight into the use of the various tools at their command, every effort will be exerted to adapt the course to the special needs of individuals. Attention is given to both construction and applied design. The manual training teacher is

anxious to co-relate his work with that of the drawing teacher so that working drawings may be made of some of the models in order that the pupils may become better acquainted with the former, and thereby save the instructor much valuable time now expended in explanation. Special attention will be given later to staining, shellacing, polishing and finishing of the completed work of pupils. The superintendent of schools, Mr. William F. Sims, has in many ways exhibited his deep interest in this department. I am very grateful for this and the valuable suggestions he has given. I very much regret that so few of the parents of the boys have availed themselves of the opportunity to visit this department and see what the pupils are accomplishing. I am very much pleased with the interest shown by a majority of the pupils and the zeal with which they apply themselves to the work before them. There are at present no sanitary arrangements in this building. This is a great source of inconvenience, and should receive attention at an early date. I trust that the school committee will take the matter up as soon as it has received the next annual appropriation. I am,

Very respectfully,

S. PERRY CONGDON,

Instructor in Manual Training.

FRANCES JOSEPHINE EDMANDS, '11.

PRESENTATION OF DIPLOMAS

FRANK P. BENNETT, JR.

SINGING OF CLASS ODE

Excused. † Tied for second honor.

CLASS ODE.

WORDS BY C. ETHEL FARNUM.

AIR—RUBENSTEIN'S MELODY IN F.

To-night, dear Classmates, crowns the work
Of four short happy years,
And since our tasks are all complete,
We have no cause for fears.

A strain of sadness fills our hearts,
While gathered here to-night,
Henceforth our lives lie far apart,
Oh! may those lives be bright.

Class 1910 go forth and strive,
And win for us a place.
Give and receive, do right, fear not,
While time moves on apace.

Farewell dear Class of 1910,
From all wrong be exempt,
And mindful of our motto e'er—
“Complete what you attempt.”

GRADUATES.

Four Years Classical Course.

Ida Louise Blossom	Welcome William McCullough
Mary Josephine Edmands	Edith Francis Norton
Cora Ethel Farnum	Alma Jeanne Nourse
